

Sustainable Development Select Committee			
Title	Convoys Wharf	Item	6
Contributor	Scrutiny Manager		
Class	Part 1 (Open)	Date	31 October 2013

1. Purpose

At its meeting in May, the Committee agreed to consider an item at its meeting on 11 July about the 'Build the Lenox' project. A Deptford community group (The Lenox Project) informed the Committee about its proposals to build a replica 17th century ship (the Lenox) on Convoys Wharf, in celebration of the area's maritime history. At that meeting the Committee resolved to invite representatives from Hutchison Whampoa, which has put forward proposals for the development of Convoys Wharf, to share its views about how the historic significance of Deptford, including the Build the Lenox project, might be incorporated into the new development. Representatives of Hutchison Whampoa have been invited to the Committee meeting on 31 October.

2. Recommendation

The Committee is recommended to receive the presentation from- and direct questions to- representatives of Hutchison Whampoa at the meeting on 31 October.

3. Further implications

At this time there are no specific additional financial, legal, equalities, crime and disorder implications or environmental implications arising from this report.
