### **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LONDON BOROUGH OF LEWISHAM PENSION FUND**

#### **Opinion on the pension fund financial statements**

We have audited the pension fund financial statements of London Borough of Lewisham Pension Fund for the year ended 31 March 2014 under the Audit Commission Act 1998. The pension fund financial statements comprise the Fund Account, the Net Assets Statement and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2013/14.

This report is made solely to the members of London Borough of Lewisham Pension Fund in accordance with Part II of the Audit Commission Act 1998 and for no other purpose, as set out in paragraph 48 of the Statement of Responsibilities of Auditors and Audited Bodies published by the Audit Commission in March 2010. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Authority and the Authority's Members as a body, for our audit work, for this report, or for the opinions we have formed.

#### **Respective responsibilities of the Executive Director for Resources and Regeneration and auditor**

As explained more fully in the Statement of Responsibilities for the Statement of Accounts, the Executive Director for Resources and Regeneration is responsible for the preparation of the Authority's Statement of Accounts, which includes the pension fund financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom, and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

#### **Scope of the audit of the pension fund financial statements**

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the fund's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Executive Director for Resources and Regeneration; and the overall presentation of the financial statements.

In addition, we read all the financial and non-financial information in the explanatory foreword and the annual report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

### Opinion on the pension fund financial statements

In our opinion the pension fund's financial statements: give a true and fair view of the financial transactions of the pension fund during the year ended 31 March 2014 and the amount and disposition of the fund's assets and liabilities as at 31 March 2014; and have been properly prepared in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2013/14 and applicable law.

### Opinion on other matters

In our opinion, the information given in the explanatory foreword and the content of the Annual Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

### PENSION FUND ACCOUNTS

#### FOREWORD

This Pension Fund Statement of Accounts details the financial position and performance of the Lewisham Pension Fund for the year 2013/14.

The Pension Fund's value rose over the year by £37m, mainly due to an increase in stock valuation during the year.

#### INTRODUCTION

The London Borough of Lewisham Pension Fund ('the Fund') is part of the Local Government Pension Scheme. The Fund is a contributory defined pension scheme administered by the London Borough of Lewisham to provide benefits to London Borough of Lewisham employees and former employees and admitted and scheduled bodies. These benefits include retirement allowances and pensions payable to former employees and their dependants, lump sum death gratuities and special short-term pensions. The Fund is financed by income from investments and contributions from employees, the Council and other admitted and scheduled bodies.

#### ORGANISATION

The fund is governed by the Superannuation Act 1972. The fund is administered in accordance with the following secondary legislation:

- The Local Government Pension Scheme (Benefits, Membership and Contributions) Regulations 2007 (as amended)
- The Local Government Pension Scheme (Administration) Regulations 2008 (as amended)
- The Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009.

Formal responsibility for investment management of the Pension Fund is delegated to the Council's Pensions Investment Committee (PIC), which appoints and monitors external investment managers. Each investment manager has an individual performance target and benchmark tailored to balance the risk and return appropriate to the element of the Fund they manage. The investment managers also have to consider the PIC's views on socially responsible investments. Details of the Socially Responsible Investment policy are contained in the Statement of Investment Principles (see web address below).

The Pension Fund administration is managed by a small in-house team, which is also responsible for other areas of work such as redundancy payments, gratuities and teachers compensations.

A statement of the Fund's corporate governance, funding strategy and investment principles can be found on the authority's website, at the following address:

<http://www.lewisham.gov.uk/mayorandcouncil/aboutthecouncil/finances/Pages/Pension-fund.aspx>

## Pension Fund Accounts

---

### ACCOUNTING POLICIES

The Pension Fund accounts have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2013/14 which is based upon International Financial Reporting Standards (IFRS), as amended for the UK public sector.

The accounts summarise the transactions of the Fund and report on the net assets available to pay pension benefits. The accounts do not take account of the obligations to pay pensions and benefits which fall due after the end of the financial year. In respect of future obligations, the actuarial present value of promised retirement benefits, valued on an International Accounting Standard (IAS) 19 basis, is disclosed in paragraph (n) below.

The Local Government Pension Scheme (Amendment) (No. 3) Regulations 2007 also requires administering authorities in England and Wales to prepare a Pension Fund Annual Report which must include the Fund Account and a Net Assets Statement with supporting notes prepared in accordance with proper practices. The Regulations summarise the Pension Code and the minimum disclosure requirements.

The date for publishing the Pension Fund Annual Report is on or before 1 December following the end of the financial year. The Council will be taking its Annual Report to its Pensions Investment Committee in November to comply with this deadline.

A summary of the significant accounting policies and the basis of preparation of the accounts are shown below:

- (a)** Basis of Preparation - The accounts have been prepared on an accruals basis (i.e. income and expenditure attributable to the financial year have been included) even where payment has not actually been made or received, except Transfer Values which are prepared on a cash basis. The financial statements do not take account of liabilities to pay pensions and other benefits due after the period end; these are reported upon separately in the Actuary's report and reflected in the Council's income and expenditure account. The accounts are prepared on a going concern basis for accounting purposes.
- (b)** Investments - Investments in the Net Assets Statement are shown at market value based on bid prices, as required by the 2013/14 Local Authority Code of Practice and the IAS 26 Retirement Benefit Plans. The market value of equity investments is based on the official closing data, in the main, with last trade data being used in a small number of countries. Unitised equities are quoted based on last trade or official closing price. Northern Trust, the Fund's custodian, sets out its pricing policies in a document entitled "Asset pricing guidelines" which details its pricing process and sets out preferred pricing sources and price types.
- (c)** The change in market value of investments during the year comprises all increases and decreases in market value of investments held at any time during the year, including profits and losses realised on the sale of investments during the year.

---

## Pension Fund Accounts

---

- (d) Income - Dividend income earned from equity and bonds (excluding Private Equity) is reinvested by Investment Managers and not repaid directly to the fund as cash. Interest income is recognised in the Fund as it accrues. Any amount not received by the end of the accounting period will be disclosed in the note on Debtors and Creditors.
- (e) Private equity investments are valued in accordance with United States generally accepted accounting principles, including FAS 157, which is consistent with the International Private Equity and Venture Capital Valuation Guidelines. These guidelines set out that all investments are carried at fair value and they recommend methodologies for measurement. Due to timing differences in the valuation of this investment, the value carried in the accounts as at 31<sup>st</sup> March 2014 is the actual fair value using the latest available valuation on or after 31<sup>st</sup> December 2013, plus an estimated valuation for the period up to 31<sup>st</sup> March 2014.
- (f) Property – The Fund does not have any direct investments in property, but does use a property Fund of Funds manager, Schrodgers, to invest in pooled property funds. The Schrodgers funds are all currently valued at least quarterly. The majority of property assets to which the fund has exposure are located in the UK. They are valued in accordance with the Royal Institution of Chartered Surveyors' Valuation Standards on the basis of their open market value (OMV).
- The only non UK funds are the Continental European Fund 1 and Lend Lease Real Estate Partners 3. Their net asset values are derived from the net asset values of the underlying funds. Like the UK, the values of the underlying assets are assessed by professionally qualified valuers. Valuation practices will differ between countries according to local Generally Accepted Accounting Practices. The frequency of independent valuations varies. All the funds are independently valued on a rolling basis at least annually.
- (g) The fair value of the M&G financial instruments is based on their quoted market prices at the statement of financial position date without any deduction for estimated future selling costs. Due to timing differences in the valuation of this investment, the value carried in the accounts as at 31<sup>st</sup> March 2014 is the actual fair value using the latest available valuation on or after 31<sup>st</sup> December 2013, plus an estimated valuation for the period up to 31<sup>st</sup> March 2014.
- (h) The fair value of the Investec commodities is based on their quoted market prices at the Balance Sheet date. If a quoted market price is not available on a recognised stock exchange or from a broker/dealer for a non-exchange traded financial instrument, the fair value of the instrument is estimated using Investec's valuation techniques.
- (i) Contributions – These represent the total amounts receivable from employers within the scheme in respect of their own contributions and any of their employees contributions who are members of the scheme. There are seven employee contribution bands (revised annually in line with inflation) ranging from

## Pension Fund Accounts

5.5% for members earning up to £13,700 a year to 7.5% for members earning over £87,100 a year.

Full time pay for the post	Contribution rate
Up to £13,700	5.5%
£13,701 to £16,100	5.8%
£16,101 to £20,800	5.9%
£20,801 to £34,700	6.5%
£34,701 to £46,500	6.8%
£46,501 to £87,100	7.2%
More than £87,100	7.5%

The employer's contribution is reviewed every three years and is determined by the fund's Actuary as the rate necessary to ensure that the Fund is able to meet its long-term liabilities. This is assessed at each triennial actuarial revaluation.

- (j) Benefits – Benefits payable are made up of pension payments and lump sums payable to members of the Fund upon retirement and death. These have been brought into the accounts on the basis of all valid claims approved during the year.
- (k) Transfer Values – Transfer values are those sums paid to, or received from, other pension schemes relating to periods of previous pensionable employment. Transfer values are calculated in accordance with the Local Government Pension Scheme Regulations and have been brought into the accounts on a cash basis.
- (l) Taxation – The fund is a registered public service scheme under section (1) of Schedule 36 of the Finance Act 2004 and as such is exempt from UK income tax on interest received and from capital gains tax on the proceeds of investments sold. Income from overseas investments suffers withholding tax in the country of origin, unless exemption is permitted. Irrecoverable tax is accounted for as an expense as it arises.
- (m) VAT – By virtue of Lewisham Council being the administering authority, VAT input tax is recoverable on fund activities. Any irrecoverable VAT is accounted for as an expense.
- (n) Actuarial – The adequacy of the Fund's investments and contributions in relation to its overall and future obligations is reviewed every three years by an Actuary appointed by the Council. The Council's Actuary, Hymans Robertson, assesses the Fund's assets and liabilities in accordance with Regulation 77 of the Local Government Scheme Regulations 1997. The contribution rate required for benefits accruing in future is assessed by considering the benefits which accrue over the course of the three years to the next valuation.

The most recent actuarial valuation carried out under Regulation 36 of the LGPS (Administration) Regulations 2008 was as at 31 March 2013.

Some of the triennial valuation financial assumptions made, with comparison to the previous valuation, are presented in the table below:

## Pension Fund Accounts

Financial assumption	March 2013 %	March 2010 %
Discount Rate	4.6	6.1
Price Inflation	3.3	3.3
Pay Increases	4.3	5.3*
Pension Increase:		
Pension in excess of GMP	2.5	3.3
Post -88 GMP	2.5	2.8
Pre-88 GMP	0.0	0.0
Revaluation of Deferred Pension	2.5	3.3
Expenses	0.7	0.6

\* The assumption for 2010 was actually 1% p.a for 2010/11 and 2011/12 and 5.3% thereafter.

With effect from the 1 April 2014, the actuarial review carried out for 31 March 2013 resulted in no increase to the Council's contribution rate of 21.5% for 2014/15 and annual increases of 0.5% for the subsequent two years (2015/16 and 2016/17). The next actuarial valuation of the Fund will be carried out as at 31 March 2016, with new employer contribution rates taking effect from 1 April 2017.

The triennial valuation on the 31st March 2013 revealed that the Fund's assets, which at 31 March 2013 were valued at £868 million, were sufficient to meet 71.4% (75.4% in 2010) of the current liabilities valued at £1,216 million (£949 in million 2010) accrued up to that date. The resulting deficit at the 2013 valuation was £348million (£234 million in 2010).

### Actuarial Present Value of Promised Retirement Benefits

The Actuary has calculated the actuarial present value of future retirement benefits (on an IAS 26 basis) to be £1,416 million as at 31st March 2014 (£1,353 million 31st March 2013).

- (o) Investment Management and Administration - paragraph 42 of the Local Government Pension Scheme (Administration) Regulations 2008, permit the Council to charge the scheme's administration costs to the Fund. A proportion of relevant Council officers' salaries, including related on-costs, have been charged to the Fund on the basis of actual time spent on scheme administration and investment-related business. The fees of the Fund's general investment managers are charged on a quarterly basis and are generally calculated as a set percentage of the market value funds under management as at the end of those quarters. The Council's administrative costs are shown in the Fund Account as part of expenditure.
- (p) Foreign currency transactions are made using the WM/Reuters exchange rate in the following circumstances:
  - Purchase and sales: the foreign exchange rate applicable on the day prior to the trade date is used.
  - Stock holdings: all holdings valuations are made using the WM/Reuters close of previous business day.

## Pension Fund Accounts

- Dividend receipts: the rate applicable on the day prior to the date the dividend is received is used.

### (q) 2013/14 Financial Year Summary of the Fund's Market Value

Fund Manager	Assets	Assets Value	Assets Value	Proportion of Fund 2013/14 (%)
		2013/14 £'000	2012/13 £'000	
<b>Schroders Property</b>	Property	76,179	69,598	8.4
<b>HarbourVest</b>	Private Equity	39,136	37,515	4.3
<b>UBS</b>	Passive Equity and Bonds	371,042	340,486	41.0
<b>Blackrock</b>	Passive Equity and Bonds	369,472	338,769	41.0
<b>Investec</b>	Commodities	33,651	37,889	3.7
<b>M&amp;G</b>	Credit	13,981	13,411	1.6
<b>Securities Lending</b>	Securities Lending	93	88	-
<b>Unallocated Funds</b>	Cash	1,202	29,836	-
<b>Lewisham</b>	Cash and Net Current Assets	38	-43	-
<b>Total Fund</b>		<b>904,794</b>	<b>£867,549</b>	<b>100.0</b>

- (r) Commitments - Where capital committed to investments is not fully drawn down at the end of the financial year, the outstanding commitment is not included in the net asset statement but is referred to in the notes to the accounts, please see note 13.
- (s) Financial Instruments –  
 Financial Liabilities are recognised on the Net Asset Statement when the Fund becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost.  
 Financial Assets are recognised on the Net Asset Statement when the Fund becomes a party to the contractual provisions of a financial instrument. Financial Assets are classified into two types:  
 Loans and receivables – assets that have fixed or determinable payments but are not quoted in an active market  
 Fair value through profit or loss – assets that are held for trading.

---

## Pension Fund Accounts

---

- (t)** Critical Judgements in Applying Accounting Policies and Assumptions made about the Future and other Major Sources of Estimation Uncertainty – The statement of accounts contain critical judgements in applying accounting policies and estimated figures based on assumptions made by the authority about the future or that are otherwise uncertain. There are two areas in the accounts where critical judgements are applied which are materially significant to the accounts:
- Actuarial present value of promised retirement benefits – the figure of net liability to pay pensions is based on a significant number of assumptions including the discount rate, mortality rates and expected returns on fund assets. The Pension Fund’s qualified actuary calculates this figure to ensure the risk of misstatement is minimised.
  - Private Equity and M&G valuations – the value of the Fund’s private equity holdings is calculated by the General Partners of the fund on the basis of their Valuation Policy, which follows best practice in the industry. However this is based upon a 31 December audited accounts valuation adjusted for distributions and capital calls up to 31 March.
- (u)** Additional Voluntary Contributions (“AVCs”)  
Members of the Fund are able to make AVCs in addition to their normal contributions. The related assets are invested separately from the main fund, and In accordance with the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009, are not accounted for within the financial statements. If on retirement members opt to enhance their Scheme benefits using their AVC funds, the amounts returned to the Scheme by the AVC providers are disclosed within transfers-in. Further details about the AVC arrangements are disclosed in note 15 to the financial statements.

### FINANCIAL INSTRUMENTS

The accounting policies describe how the different asset classes of financial instruments are measured, and how income and expenses are recognised. The following table analyses the carrying amounts of financial assets and liabilities by category. No financial assets were reclassified during the accounting period. All assets are held at fair value, therefore there is no difference between fair value and carrying value.

31 <sup>st</sup> March 2014			Financial Assets	31 <sup>st</sup> March 2013		
Fair Value through Profit and Loss	Loans and Receivables	Financial Liabilities at Amortised Cost		Fair Value through Profit and Loss	Loans and Receivables	Financial Liabilities at Amortised Cost

## Net Gains and Losses on Financial Instruments

The following table shows net gains on financial instruments:

31 March 2014		31 March 2013
£'000	<b>Financial Assets</b>	£'000
36,147	Fair Value through Profit and Loss	85,404
0	Loans and Receivables	0
	<b>Financial Liabilities</b>	
0	Fair Value through Profit and Loss	0
<b>36,147</b>	<b>Total</b>	<b>85,404</b>

The fund also received bank interest totalling £996 during the year.

## Valuation of Financial Instruments carried at Fair Value

The following table provides an analysis of the financial assets and liabilities of the pension fund grouped into Levels 1 to 3, based on the level at which the fair value is observable.

Level 1 - consists of assets where the fair values are derived from unadjusted quoted prices in active markets for identical assets and liabilities (e.g. quoted equities).

Level 2 - consists of assets where quoted market prices are not available (e.g. where an instrument is traded in a market that is not considered to be active).

Level 3 - consists of assets where at least one input that could have a significant effect on the instrument's valuation is not based on observable market data.

### FINANCIAL RISK MANAGEMENT

As an investment fund, the Lewisham Pension Fund's objective is to generate positive investment returns for an accepted level of risk. Therefore the Fund holds a mix of financial instruments such as securities (equities, bonds), collective investment schemes (pooled funds), and cash equivalents. In addition, debtors and creditors arise as a result of its operations. The value of these financial instruments is reflected in the financial statements at their fair value.

Responsibility for the fund's risk management strategy rests with the Council's Pension Investment Committee. Risk management policies are established to identify and analyse the risks faced by the Council's pension operations. The main risks from the Fund's holding of financial instruments are market risk, credit risk, and liquidity risk. These policies are reviewed regularly to reflect change in activity and in market conditions.

The Committee regularly monitors each investment manager, and its investment consultant (Hymans Robertson) advises on the nature of the investments made and associated risks.

The Fund's investments are managed on behalf of the Fund by the appointed investment managers. Each investment manager is required to invest the assets managed by them in accordance with the terms of their investment guidelines or pooled fund prospectus.

The Committee has determined that the current largely passive investment management structure is appropriate and is in accordance with its revised investment strategy.

The Fund's investments are held by Northern Trust, who act as custodian on behalf of the Fund. As the Fund adopts a long term investment strategy, the high level strategic risks described below will not alter significantly during any one year unless there are significant strategic or tactical changes made to the portfolio.

#### **i) Market Risk**

Market risk represents the risk that fair value of a financial instrument will fluctuate because of changes in market prices, interest rates or currencies. The Fund is exposed, through its investments in equities, bonds and investment funds, to all these market risks. The aim of the investment strategy is to manage and control exposure to market risk within acceptable parameters while optimising the return from the investment portfolio. In general, market risk is managed through the diversification of the investments held by asset class, investment mandate guidelines and investment managers. The risk arising from exposure to specific markets is limited by the strategic asset allocation, which is regularly monitored by the PIC.

**a) Market Price Risk** represents the risk that the value of a financial instrument will fluctuate as a result of factors other than interest rate or foreign currency movements, whether those changes are caused by factors specific to the individual instrument, its

# APPENDIX A

LONDON BOROUGH OF LEWISHAM STATEMENT OF ACCOUNTS 2013/14

## Pension Fund Accounts

issuer or factors affecting the market in general. Market price risk arises from uncertainty about the future value of the financial instruments that the Fund holds. All investments present a risk of loss of capital, the maximum risk being determined by the fair value of the financial instruments. The investment managers mitigate this risk through diversification in line with their own investment strategies and mandate guidelines. The Council and its investment advisors also undertake appropriate monitoring of market conditions and benchmark analysis. The Fund has a long term view on expected investment returns which smoothes out short term price volatility.

Following analysis of historical data and expected investment return movement during the financial year, in consultation with the Fund's advisors, the Council has determined that the following movements in market price risk are reasonably possible for the 2014/15 reporting period.

<b>Asset Type</b>	<b>Potential Market Movement +/- (%p.a.)</b>
UK Equities	12.21
Overseas Equities	11.77
Total Bonds	6.85
Cash	0.02
Alternatives	6.96
Property	2.09

The potential volatilities are broadly consistent with a one standard deviation movement in the change in value of the assets over the latest three years. This can then be applied to the period end asset mix as follows:

<b>Asset Type</b>	<b>Final Market Value as at 31/3/2014 £'000</b>	<b>Percentage Change %</b>	<b>Value on Increase £'000</b>	<b>Value on Decrease £'000</b>
UK Equities	334,884	12.21	375,774	293,995
Overseas Equities	240,584	11.77	268,901	212,268
Property	75,732	2.09	77,315	66,700
Total Bonds	170,744	6.85	182,440	159,048
Other Assets	71,690	6.96	76,679	74,149
Cash	10,651	0.02	10,653	10,649
<b>Total Assets</b>	<b>904,285*</b>	<b>7.37**</b>	<b>970,931</b>	<b>837,639</b>

\* This figure excludes derivatives and other investment balances.

\*\*This is the average variance in proportion to the value of asset type held.

**b) Interest Rate Risk** is the risk the Pension Fund is exposed to from changes in interest rates and relates to its holdings in bonds and cash. Based on interest received on bonds and cash held by investment managers, a 0.5% change in interest rates

## Pension Fund Accounts

would result in an approximate annualised change in income of £765k. The risk is mitigated by the Fund holding minimum cash balances and a diversified portfolio.

**c) Currency Risk** is the risk to which the Pension Fund is exposed to fluctuations in foreign currency exchange rates. The fund is exposed to currency risk on financial instruments that are denominated in any currency other than the functional currency of the fund (£UK). The fund was exposed to the following significant foreign currency levels (i.e. £2m and over) as at the 31<sup>st</sup> March 2014:

Australian Dollars £15m

Euro £37m

Hong Kong Dollars £4m

Singapore Dollars £2m

US Dollars £130m

The remaining exposures arise from smaller investments relating to other European currencies such as the Swiss Franc.

The fund's currency rate risk is routinely monitored by the Council and its investment advisors. In practice, this is achieved by the use of futures and forward foreign exchange contracts, which entitle and oblige the seller and holder to exchange assets or currency on a future date at a predetermined price or rate. The former are tradable on exchanges, the latter are "over the counter" agreements, which neither the purchaser or the seller may transfer. There is no cost on entering into these contracts but the market value is established as the gain or loss that would arise at the settlement date from entering into an equal and opposite contract at the reporting date. As at 31 March 2014, there were no derivative contracts held. Following analysis of historical data in consultation with the Fund's advisors, the Council considers the likely volatility associated with foreign exchange rate movements to be 6.09%. This volatility is applied to the fund's overseas assets as follows:

Asset Type	Asset Value @ 31/3/2014 £'000	% Change	Value on Increase £'000	% Change	Value on Decrease £'000
Overseas Equities	240,584	+6.09%	255,247	-6.09%	225,922
Other Assets	56,974	+6.09%	60,447	-6.09%	53,502
Other Alternatives	60,191	+6.09%	63,860	-6.09%	56,523
<b>Total</b>	<b>357,749</b>	<b>+6.09%</b>	<b>379,554</b>	<b>+6.09%</b>	<b>335,947</b>

## ii) Credit Risk

Credit risk represents the risk that the counterparty to a financial instrument will fail to meet an obligation and cause the Fund to incur a financial loss. This is often referred to as counterparty risk. The market values of investments generally reflect an assessment of credit risk in their pricing and consequently the risk of loss is implicitly provided for in the carrying value of the fund's financial assets and liabilities. The Fund is exposed to credit risk through its underlying investments (including cash balances) and the transactions it undertakes to manage its investments. The careful selection of and monitoring of counterparties including brokers, custodian and investment managers seeks to minimise the credit risk that may occur through the failure to settle transactions in a timely manner.

## Pension Fund Accounts

The Fund is also exposed to credit risk through Securities Lending. The Securities Lending (SL) programme is run by the Fund's custodian, Northern Trust. Northern Trust assign four different risk management oversight committees to control counterparty risk, collateral risk and the overall securities lending programme. The minimum level of collateral for securities on loan is 102%. However, more collateral may be required depending on the type of transaction. To further mitigate risks, the collateral held on behalf of the Pension Fund is ring fenced from Northern Trust. Securities lending is capped by investment regulations and statutory limits are in place to ensure no more than 25% of eligible assets can be on loan at any one time. The Fund's exposure through the SL programme is now reduced as the fund is now passively managed and SL activity has greatly reduced.

The Financing Fund (M&G) is also exposed to credit risk. The fund gains exposure by investing in private placements. This risk is managed by the manager assigning a credit analyst to all investments, who continually monitors the asset, its direct peers and its sector.

### iii) Liquidity Risk

Liquidity risk is the risk that the Pension Fund will have difficulties in paying its financial obligations as they fall due, for example the benefits payable costs and capital commitments. The fund therefore takes steps to ensure that it has adequate cash resources to meet its commitments. The fund holds a large proportion of assets in instruments which can be liquidated at short notice, normally three working days. As at the 31 March 2014 these assets totalled approximately £746m, with a further £10.6m held in cash by the custodian on behalf of the Fund and fund managers.

### **6. INVESTMENT MANAGEMENT FEES**

	<b>2013/14</b> <b>£'000</b>	<b>2012/13</b> <b>£'000</b>
Fund Managers' Fees	1,389	1,872
Custodian Fees	48	227*
Advisory Costs	30	63
	<b>1,467</b>	<b>2,162</b>

\*These fees included the cost of transition management from active to passive.

### **7. PRIOR YEAR ADJUSTMENT**

No prior year adjustments have been made to these accounts.

# APPENDIX A

LONDON BOROUGH OF LEWISHAM STATEMENT OF ACCOUNTS 2013/14

## Pension Fund Accounts

The pending trades relate to purchases and sales by managers which have yet to be the subject of cash settlement. Pending trade sales and purchases at the year end are treated as investment debtors and creditors.

### 10. CASH AND BANK

#### Cash Held With Custodian

The Northern Trust Company is the fund's global custodian and the cash is held to meet the cash flow requirements of the fund and its managers. Part of the cash held last year was re-invested in equal shares of £12.5m in both Blackrock and UBS according to their existing benchmarks. The total cash held as at 31<sup>st</sup> March 2014 was £10.7m (£33.5m as at 31<sup>st</sup> March 2013). Approximately £6.0m of the cash held was from Harbourvest, and £2.5m from M&G. Only approximately £0.8m was being held on behalf of managers.

#### Pension Fund Bank Account

The Lewisham cash balance represents uninvested cash held in the Pension Fund bank account as at 31<sup>st</sup> March 2014. The cash in hand figure excludes a figure of £496K to be paid by the Council to the Fund for items described in note 14a below.

### 11. TRANSACTION COSTS

The following direct costs were incurred in relation to individual investment transactions:

	2013/14 £'000	2012/13 £'000
Total Purchases	1	261
Total Sales	2	148
<b>Total transactions</b>	<b>3</b>	<b>409</b>

### 12. POST YEAR END EVENTS

The value of the Fund's investment assets has increased by £57.4m (6.4%) from 31 March 2014 to 18 September 2014.

### 13. COMMITMENTS

The Pension Fund was committed to the following capital contributions as at the 31<sup>st</sup> March 2014

#### Harbourvest

Fund	Amount	Translated £'000
Harbourvest Partners VIII – Cayman Venture Fund L.P	\$997.5	599
Harbourvest Partners VIII – Cayman Buyout Fund L.P	\$3,515	2,109
Harbourvest International Private Equity Partners V – Cayman Partnership Fund L.P	€1,575	1,302
Harbourvest International Private Equity Partners V – Cayman Direct Fund L.P	€180	149
<b>Total</b>		<b>4,159</b>

---

## Pension Fund Accounts

---

The Harbourvest commitments have been translated from either Euros or Dollars using exchange rates as at 31<sup>st</sup> March 2014. This compares to the total Harbourvest commitments at 31<sup>st</sup> March 2013 £6.7m.

### 14. RELATED PARTY TRANSACTIONS

There have been no material transactions with related parties in the financial year. There were no provisions for doubtful debt and amounts written off in the period.

Eight Councillors sit on the Pensions Investment Committee which oversees the Fund. Six Councillors of this Committee were members of the pension scheme as at 31<sup>st</sup> March 2014. At each meeting of the Pensions Investment Committee, Councillors are required to make declarations of interest which are minuted at the meeting.

During the year the following declarations were made:

- Cllr Muldoon declared a personal interest, that he has been appointed as substitute member of the Cost and Contribution Sub-Committee of the Shadow Advisory Board of the Local Government Pension Scheme. This will become a (non Shadow) full Advisory Board in April 2014.
- Councillor Muldoon declared a personal interest, as a friend of the Chair of Schroder Income Growth Fund plc.

No other trustees or Council chief officers with direct responsibility for pension fund issues made any declarable transactions with the Pension Fund in the period to 31 March 2014.

The Council, the administering body, had dealings with the Fund as follows:

- a) Recharges from the Council for the in-house administration costs and other expenses, such as interest payable on balances, borne by the scheme were transacted for £581k (see note 3). Some cash transactions relating to pension activities are currently effected through the Council's bank account and consequently pension fund cash balances are held by the Council from time to time and vice versa.
- b) The salary of the Executive Director for Resources and Regeneration is disclosed in the Council's full set of accounts.

### 15. ADDITIONAL VOLUNTARY CONTRIBUTIONS (AVCs)

Contributing members have the right to make AVCs to enhance their pension. There are currently 48 'open' AVC contracts for LGPS members (i.e. excluding members with AVC contracts who have left Lewisham and now have preserved benefits). Some of these 'open contracts' will be for members who have paid AVCs in the past but who have suspended payments to the scheme for the time being.

# APPENDIX A

LONDON BOROUGH OF LEWISHAM STATEMENT OF ACCOUNTS 2013/14

## Pension Fund Accounts

The fund has two AVC providers: Clerical Medical and Equitable Life. The value of AVC investments is shown below. The contributions are held by the providers and do not form part of the Lewisham fund's assets in accordance with regulation 4(2)(b) of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009.

Chequers Contract Services

### 18. STOCK LENDING

The Statement of Investment Principles permits the Fund to enter into stock lending whereby the Fund lends other bodies stocks in return for a fee and collateral whilst on loan. Equities and fixed income assets held in segregated accounts in custody may be lent. The Fund actively lends in 50 different equity and fixed income markets worldwide. Northern Trust conducts this activity on behalf of the Fund.

The economic benefits of ownership are retained when securities are on loan. The Fund has its full entitlements at all times to any income due, or rights on its securities on the anticipated date of the entitlement so that no economic benefits are foregone as a result of securities lending activity.

Northern Trust is responsible for collecting dividend and interest income on loaned securities from borrowers. The right to vote moves with the securities.

As at the 31<sup>st</sup> March 2014, the value of aggregate stock on loan was £1.3m (£1.0m as at 31<sup>st</sup> March 2013). These have been carried in the accounts at this value. There are no liabilities associated with these assets.

### Collateral

The collateral held as security on loans cannot be sold or repledged in the absence of default by the borrower. The Council entered into stock lending transactions during the financial year earning £93k net of direct expenses (compared to £88k in 2012/13). The value of collateral held as at 31 March 2014 was £1.4m (£1.1m as at 31<sup>st</sup> March 2013).
