Partner Profile Assessment

Criteria	Score	Comments		
Local	Good	Good understanding of the needs of users which is gained through		
Intelligence		close monitoring of need in various ways. This includes verbal		
		disclosure, staff assessments and observations.		
Transformation	Excellent	There is an established track record of working in the borough		
		spanning two decades. There are also clear future plans of		
		improvement, as well as the possibility of match funding if this grant		
		is approved.		
Collaboration	Excellent	Great track record with a high level of respect from users and		
		partner agencies alike. They have some excellent examples of		
		partnership work that benefits users and non-users.		
Resources	Excellent	Excellent track record of bringing in resources. For every £2 award		
		to the project via the grant, an additional £98 is levered into the		
		borough. They are also in receipt of an enhanced grant from Lloyds		
		which will aid transformation. At the moment, reserves stand at		
		£242,457 of which £134,754 is restricted and £107,703 is		
		unrestricted. 25-30 % of annual income comes from the rental of		
		flats.		
Shared Values	Excellent	All staff are in receipt of the London Living Wage, whilst there are		
		good systems in place for monitoring equality. The application		
		addresses all three areas.		
Quality and	Excellent	Excellent systems for monitoring quality, with a good track record of		
effectiveness		monitoring. The feedback they gain is used to improve and develop		
		services.		

Partner Profile Summary:

An excellent application which shows the way in which the organisation works and intends to improve in the future. The services are tailored to the needs of users with excellent arrangements for gaining feedback. This organisation has great plans for the future which will benefit not only the users, but also their families and the wider community.

2d Provision for Vulnerable Adults Score: Excellent Comments: Funding is sought to support a programme for vulnerable adults with complex social needs that has; • An open access breakfast session • Employment, education and life skills training including a Job Club/ICT/ESOL/Money Management/Numeracy/Literacy • Health & Wellbeing interventions that will build on the existing partnerships the 999 Centre has • Other leisure, sports and arts activities that allow participants to express their creativity, celebrate achievement and improve fitness. • Access to Advice and Advocacy service as well as more focussed support from all homeless support staff aimed at raising self-esteem, independent living and move-on. This includes more staff time allocated to be in contact with partner agencies to jointly work on individual cases and track outcomes. • A members focus group to advise on the content of the activities programme, altered on a quarterly basis in response to their requirements. This is presently being reconvened by a consultant who is working in partnership with Bench Outreach • The opportunity for peer support and volunteering opportunities that allows members to become more actively engaged in their local community. The 999 Club recognise the need to manage down the numbers of people we see and concentrate on those most needy in order to produce more meaningful outcomes that lead to independent living, rather than running an open door day centre which is extremely positive and likely to improve the quality of their offer significantly.
