

LEWISHAM FUTURE PROGRAMME – SAVINGS REPORT APPENDICES – SEPTEMBER 2015

APPENDIX 6 – SAVINGS PROPOSALS FOR SCRUTINY, SECTION I

Contents page

Section I: Management and Corporate Overheads

I2: Further review of policy, governance and administration support staff Includes: Policy, performance, service redesign and intelligence Senior management support service Governance	103
I3 Reorganisation of how Complaints are managed across the Council	111
I4: Review of Strategy and Comms Includes: Review of Programmes in Strategy and Mayor and Cabinet Office Restructure of Communications after voluntary redundancies	115
I5: Commissioning and Procurement	119
I6: Insurance recharge risk premium	123
I7: Further review of financial services team	127
I8: Legal: Streamlining procurement and legal administration.	131
I9: HR: Reduction in Human Resources Support Includes: HR Support TU Secondments Graduate Scheme Social Care Training Realign Schools HR Recharges	135
I10: IT: further consolidate ICT spend across the Council and digitise committee papers. Includes: Revising infrastructure support and arrangements Contract, systems and supplies review Committee Papers: move to digital access only	139

1. Savings proposal	
Proposal title:	policy development, support to senior management and council governance
Reference:	I2
LFP work strand:	Corporate & Management Overheads
Directorate:	Resources & Regeneration
Head of Service:	Barrie Neal
Service/Team area:	Policy & Governance
Cabinet portfolio:	Policy & Performance and Resources
Scrutiny Ctte(s):	Public Accounts

2. Decision Route			
Saving proposed:	Key Decision Yes/No	Public Consultation Yes/No	Staff Consultation Yes/No
a) policy, performance, service redesign and intelligence	No	No	Yes
b) senior management support service	No	No	Yes
c) governance	No	No	Yes

3. Description of service area and proposal
Description of the service area (functions and activities) being reviewed:
<p>Savings on policy development, support to senior management and council governance.</p> <p><u>a) policy, performance, service redesign and intelligence</u></p> <ul style="list-style-type: none"> - already the subject of a 50% saving for 15/16, staff numbers were reduced in the service area saving £900,000 and the function was remodelled around a single consolidated team - the smaller and newly modelled team was launched in the middle of June 2015 - the team supports the organisation's need for policy development (including response to equalities duties), statutory publications, performance management, service redesign and intelligence - the newly formed function has begun to establish new ways of working that provide for greater economy, efficiency and effectiveness within a significantly reduced cost base - key service priorities relate to: policy development (including this year's renewal of the comprehensive equalities scheme and annual monitoring of the CES); statutory publications including the annual governance statement (AGS), comprehensive equalities scheme (CES) and annual CES review; support for the budget process and advice for service consultations and equalities analysis assessment; integration of key service areas across agencies (including social care – health integration); inspections (e.g. Ofsted and CQC inspections due this year); supporting a number of partnership boards; development and management of service related performance data,

3. Description of service area and proposal

performance management & review; service redesign for cost reduction and improved service delivery; intelligence (covering demographic trends and horizon scanning for key changes impacting on the borough)

b) senior management executive support

- executive directors and heads of service are supported by three teams of personal assistants
- cost reductions in the last year reduced the number of PAs supporting heads of service

c) governance

- supporting member decision making, scrutiny functions, member development, education appeals, civic events and international partnerships
- savings to date have impacted on staff numbers and though demand has increased with new committees to be served and the volume of governance activities increasing, these demands have been absorbed within a small staff complement with the adoption of technology, including 'modern.gov' and a bespoke software system to address the huge scale of education appeals
- pressures persist in particular in the management of education appeals and the wide range of popular civic events as well as the core responsibilities for committee management to both executive and scrutiny functions

Saving proposal

a) policy, performance, service redesign and intelligence £180,000 – 2017/18

The proposed saving would, subject to staff consultations mean a further reduction in posts within the recently re-organised and consolidated function. The new team's impact on establishing new ways of working and streamlining processes will be evaluated after the first full year of operation. It is therefore proposed that relevant staff consultations follow the outcome of the first year and a review targets a £180,000 salaries saving to be delivered in 2017/18.

b) senior management executive support £100,000 - 2016/17

Alongside the reduction in posts in 2015/16 the potential for further savings to come were flagged-up in staff consultations. This included the scope for further consolidation and co-location of executive support to senior managers. Further consolidation of support and co-location of more posts might provide scope for additional savings of £100,000 for 2016/17, subject to the relevant staff consultations.

c) governance £75,000 – 2017/18

The service has taken salaries savings impacting on staffing over the last two years. Any further savings proposal will, subject to staff consultations, impact again on salaries budgets and the number of posts supporting the respective governance functions. Though demand has increased with new committees to be served and the volume of governance activities increasing, these demands have been absorbed within a small staff complement with the adoption of technology, including 'modern.gov' for committee management and a bespoke software system to address

3. Description of service area and proposal

the huge scale of education appeals.

The £75,000 proposed here would impact directly on salaries budgets and therefore posts supporting the function. The savings proposal is equivalent to up to two FTE posts. Proposals for savings in 2017/18 would impact, in generally what is the lighter of the four years of the administration since the saving does depend upon a reduction in the scale of governance activities.

4. Impact and risks of proposal

Outline impact to service users, partners, other Council services and staff:

a) policy, performance, service redesign and intelligence

Whilst not obviously a front-line service area, significant vulnerabilities exist around: statutory publications, statutory data returns, public consultations and data management for operational services, support & advice for Equalities Analysis Assessments (EAAs) and preparations for service inspections across adult social care and children's services. Efforts to mitigate the impact of further savings need to be set against the background of 50% savings taken in the last year. It is proposed to target any additional savings at 2017/18 taking the level of savings to 60% on 2014/15 base line.

Action being taken to accommodate current savings and prepare the ground for future savings proposals includes:

- the streamlining of business processes, systems and procedures
- reducing the scale of data demands and increasing the scale at which data risks can be managed
- consultation formats and procedures being streamlined with the potential for less corporate oversight and advice to service areas
- preparedness for inspection and external scrutiny being curtailed
- possibly reviewing the frequency of partnership boards & level of support

b) senior management executive support

The saving will, subject to staff consultations, impact on the number of posts supporting senior management. Each round of savings reduces the attention that can be provided to deal with senior management communications (letters, e-mails and telephone calls); preparations of senior officers for meetings (papers and briefings); support to council complaints, agenda planning and council questions; diary management and formal note taking & reporting. The need for a greater degree of self-servicing for basic administrative needs shifts to senior management.

c) governance

The saving, subject to staff consultations, would impact directly on the available support to the respective governance functions including committee management and scrutiny reviews. To try to mitigate the effect on committee management and scrutiny, options will be evaluated for managing the balance of that impact on the following activities: committee management, scrutiny, member development, education appeals, civic events, international partnerships. The year in which the saving is

4. Impact and risks of proposal

proposed is the final year of the current administration. This final year tends to have less committee activity, a reduced number of scrutiny reviews and less member development commitments.

Outline risks associated with proposal and mitigating actions:

- a) **policy, performance, service redesign and intelligence** – as above
- b) **senior management executive support** – as above
- c) **governance** – as above

5. Financial information

Controllable budget:	Spend £'000	Income £'000	Net Budget £'000

10. Legal implications

State any specific legal implications relating to this proposal:

The respective savings proposals will each be subject to staff consultations where appropriate and subject to the Council's Management of Change Policy.

11. Summary timetable

Outline timetable for main steps to be completed re decision and implementation of proposal – e.g. proposal, scrutiny, consultation (public/staff), decision, transition work (contracts, re-organisation etc..), implementation:

Month	Activity
August 2015	
September 2015	Proposals submitted to Scrutiny committees leading to M&C on 30 September Draft consultation papers where relevant for 2015/16 savings
October 2015	Consultations on-going
November 2015	Consultations on-going - reports returned to Scrutiny for review where relevant
December 2015	Consultations returned to Scrutiny for review leading to M&C for decision on 9 December (if appropriate)
January 2016	Transition work ongoing
February 2016	Transition work ongoing and budget set 24 February
March 2016	Savings implemented

1. Savings proposal	
Proposal title:	Customer Transformation – casework review
Reference:	I3
LFP work strand:	Corporate & Management Overheads
Directorate:	Cross council
Head of Service:	Led by Ralph Wilkinson
Service/Team area:	
Cabinet portfolio:	Policy and Performance
Scrutiny Ctte(s):	Public Accounts

2. Decision Route			
Saving proposed:	Key Decision Yes/No	Public Consultation Yes/No	Staff Consultation Yes/No
a) Casework Review	No	No	Yes

3. Description of service area and proposal
Description of the service area (functions and activities) being reviewed:
<p>The Council has a process in place for dealing with casework (complaints, casework and Freedom of Information Requests). There are Directorate teams in place to deal with this work as well as an Independent Adjudicator to deal with complaints that have escalated to stage 3 and Local Government Ombudsman liaison arrangements. The Council currently using the iCasework system to administer complaints.</p> <p>There are about 14 staff involved in casework administration but some have other responsibilities not covered by the review. The review will identify the exact number of staff involved.</p>
Saving proposal
<p>The casework review will look at the Council’s complaints process, the staff structure in place to deal with it and the IT system used. The review will consult with all stakeholders including the Mayor, Councillors, MP’s etc.</p> <p>It is estimated that the review will deliver a saving of £50K by restructuring the staffing arrangements that deliver the casework service.</p>

4. Impact and risks of proposal
Outline impact to service users, partners, other Council services and staff:
<p>The review will focus on the early resolution to complaints and the streamlining of the process to improve (or in some cases maintain) the speed and quality of the response whilst making it more efficient.</p>
Outline risks associated with proposal and mitigating actions:
<p>The risk is that the outcome of the review does not achieve the objective for all stakeholders. To mitigate this the review will ensure that all the necessary input is</p>

4. Impact and risks of proposal

gathered and considered in the redesign of the new process.

5. Financial information

Controllable budget: (approximate)	Spend £'000	Income £'000	Net Budget £'000

10. Legal implications

State any specific legal implications relating to this proposal:	
The Council will need to ensure any new complaints process is statutorily compliant where appropriate.	

11. Summary timetable

Outline timetable for main steps to be completed re decision and implementation of proposal – e.g. proposal, scrutiny, consultation (public/staff), decision, transition work (contracts, re-organisation etc..), implementation:	
Month	Activity
August 2015	Proposals prepared (this template and supporting papers – e.g. draft public consultation)
September 2015	Proposals submitted to Scrutiny committees leading to M&C on 30 September
October 2015	Consultations ongoing
November 2015	Consultations ongoing and (full decision) reports returned to Scrutiny for review

11. Summary timetable

December 2015	Consultations returned to Scrutiny for review leading to M&C for decision on 9 December
January 2016	Transition work ongoing
February 2016	Transition work ongoing and budget set 24 February
March 2016	Savings implemented

1. Savings proposal	
Proposal title:	Review of Strategy and Comms
Reference:	I4
LFP work strand:	Corporate & Management Overheads
Directorate:	Resources and Regen
Head of Service:	Robyn Fairman
Service/Team area:	Strategy
Cabinet portfolio:	Policy & Performance, Growth & Regeneration
Scrutiny Ctte(s):	Public Accounts

2. Decision Route			
Saving proposed:	Key Decision Yes/No	Public Consultation Yes/No	Staff Consultation Yes/No
a) Review of Programmes in Strategy and Mayor and Cabinet Office	No	No	Yes
b) Restructure of Comms after voluntary redundancies	No	No	No – already implemented

3. Description of service area and proposal
Description of the service area (functions and activities) being reviewed:
Programmes within Strategy include the apprenticeship programme, traineeships and the Young Mayor’s programme. The Communications Team proposal has already been implemented through the voluntary redundancy restructure.
Saving proposal
Increase the income to the team by applying for more European funding, reviewing the apprenticeship programme to suit labour market conditions, and maximising efficiencies. The Communications Team restructure has already delivered the savings through the implementation of voluntary redundancy.

4. Impact and risks of proposal
Outline impact to service users, partners, other Council services and staff:
We expect to increase income and offer more apprenticeships and traineeships (circa 90 a year) in conjunction with ESF and LEP funding. We will review the operation of the apprenticeship programme- in order to achieve delivery of new programme we will have to realign roles and restructure may be necessary.
Outline risks associated with proposal and mitigating actions:
We may be unsuccessful in winning the full amount bid for, however the LEP funding is already available. We have high success rates in winning grant.

5. Financial information			
Controllable budget:	Spend £'000	Income £'000	Net Budget £'000
	2,491	(444)	2,047
Saving proposed:	2016/17 £'000	2017/18 £'000	Total £'000

	for decision on 9 December
January 2016	Transition work ongoing
February 2016	Transition work ongoing and budget set 24 February
March 2016	Savings implemented

1. Savings proposal	
Proposal title:	Commissioning and Procurement
Reference:	I5
LFP work strand:	Corporate & Management Overheads
Directorate:	Cross Directorate
Head of Service:	Head of Corporate Resources
Service/Team area:	Cross Directorate
Cabinet portfolio:	Resources
Scrutiny Ctte(s):	Public Accounts

2. Decision Route			
Saving proposed:	Key Decision Yes/No	Public Consultation Yes/No	Staff Consultation Yes/No
a) Commissioning and Procurement	Yes	No	Yes

3. Description of service area and proposal
Description of the service area (functions and activities) being reviewed:
<p>Across all its services the Council spends in the region of £240m (approximately half the gross general fund spend annually) with third party suppliers. This excludes other commissioning and procurement activity undertaken for and on behalf of our partners, in particular Health.</p> <p>The scale of procurement activity ranges from small scale purchases to support service delivery up to the very large (multi-million pound) contracts for the provision of care services and capital projects. Some procurement activity is very transactional (e.g. purchasing refuse trucks) while other areas require more involved work through commissioning activities (e.g. purchasing of care packages for individuals).</p>
Saving proposal
<p>To continue the work begun in 2015/16 in respect of assessing and reducing our spend on commissioning and procurement activity – approximately £4m annually which represents a cost for securing and running these contracts of just over 1.5% – and the amount we spend with suppliers. The intention is to reduce contract spend where possible (by varying or re-letting contracts) and identify opportunities for efficiencies, better co-ordination, and streamlining of activities to achieve in the region of £1m of savings over the next two years.</p> <p>A base lining exercise of commissioning and procurement activity across the Council will be completed by the end of September. The Council's contract register has also been refreshed and moved to an online platform. This information and options will be presented to the Lewisham Future Board to enable them to consider whether a new organisation model for managing commissioning and procurement is appropriate (including potentially sharing services) or the savings are best achieved within individual services in proportion to their commissioning and procurement activity.</p>

4. Impact and risks of proposal

Outline impact to service users, partners, other Council services and staff:

There should be no impact to service users. However, with the planned £1m reduction in spend there are likely to be staff redundancies. How and where these changes will impact has not yet been finalised and will depend on the assessment of how savings are to be implemented when the base line analysis is concluded – see description of proposal.

Outline risks associated with proposal and mitigating actions:

The main risks to this proposal arise from reducing the resources available to complete the activities required. These might be that: 1) sub-optimal procurement decisions are made, or 2) that contract management does not maintain sufficient oversight and control - resulting in the Council not receiving the services it pays for or spending more on certain activities than is necessary.

The mitigations to these risks are through: the use of technology to help streamline procurement processes in line with EU procurement regulations (including new contract register and financial reporting tools in Oracle R12); the work of the Corporate Commissioning and Procurement Board to ensure the gateway approach introduced in 2014/15 continues and improves; guidance and training offered by the procurement team to facilitate the steps to achieving successful and value for money procurement; and the work of individual services to also use technology and their relationships with partners to improve efficiency and effectiveness in this area.

5. Financial information

Total					
Gender	Female	Male			

9. Human Resources impact					
Ethnicity	BME	White	Other	Not Known	
Disability	Yes	No			
Sexual orientation	Straight / Heterosex.	Gay / Lesbian	Bisexual	Not disclosed	

* this will be completed when the base lining exercise is concluded and the decision taken on whether the savings are to be made through a corporate 'solution' or locally by individual services.

10. Legal implications
State any specific legal implications relating to this proposal:
Irrespective of the preferred operational arrangements, those involved in commissioning and procuring services on behalf of the Council will need to ensure they continue to comply with the EU procurement regulations as they pertain to local government.

11. Summary timetable	
Outline timetable for main steps to be completed re decision and implementation of proposal – e.g. proposal, scrutiny, consultation (public/staff), decision, transition work (contracts, re-organisation etc..), implementation:	
Month	Activity
August 2015	Proposal prepared (this template)
September 2015	Proposal submitted to Scrutiny committees leading to M&C on 30 September
October 2015	Analysis of detailed baseline and implementation options to the Futures Board
November 2015	
December 2015	Staff consultations undertaken as/if necessary
January 2016	
February 2016	
March 2016	Savings implemented

1. Savings proposal	
Proposal title:	Insurance
Reference:	I6
LFP work strand:	Corporate & Management Overheads
Directorate:	Resources and Regeneration
Head of Service:	Head of Corporate Resources
Service/Team area:	Insurance and Risk Management
Cabinet portfolio:	Resources
Scrutiny Ctte(s):	Public Accounts

2. Decision Route			
Saving proposed:	Key Decision Yes/No	Public Consultation Yes/No	Staff Consultation Yes/No
a) Insurance recharge risk premium	No	No	No

3. Description of service area and proposal
Description of the service area (functions and activities) being reviewed:
Insurance and Risk ensures the Council has sufficient insurance cover (in the market or by way of reserves) and manages claims promptly and fairly to reduce the impact of risks should they materialise. The Council's insurance services are also offered to schools and housing to enable them to access the expertise and economies of scale the Council's arrangements provide.
Saving proposal
Current arrangements ensure that insurance recharges to third parties - schools via the Dedicated Schools Grant (DSG) and housing via the Housing Revenue Account (HRA) - cover the direct (e.g. premiums) and operational (e.g. claims handling) costs for providing agreed levels of cover.
This proposal is to adjust the insurance recharge model to introduce a 'premium for risk'. The revised charges will more accurately reflect the whole risk to the Council arising from the higher levels of excess applicable to school properties and provide a contribution to the risk that the Council carries in respect of the gap between the level of risk insured (self-insured and via external premium) and the actual exposure.
This will represent income to the General Fund where the cost of insurance risk is held and an expense to each of the DSG and HRA as part of the cost to them of accessing this insurance cover.

4. Impact and risks of proposal
Outline impact to service users, partners, other Council services and staff:
There is no direct impact to service users or staff. This proposal is about ensuring the Council has sufficiently robust and resourced insurance arrangements in place in the event of a serious incident that results in a claim against the Council.

4. Impact and risks of proposal

Outline risks associated with proposal and mitigating actions:

The risks associated with the proposal are that the income is not achieved because:
 1) the offer to provide insurance services from the Council to schools and the HRA are declined; or
 2) those activities leave the Council (e.g. schools become Academies or there is a housing stock transfer).

In respect of the first the mitigation is to ensure that the insurance offer (cost and level of service) continues to compare favourably with that which is offered on the open market. There is limited mitigation for the second so the risk remains.

5. Financial information

1. Savings proposal	
Proposal title:	Finance efficiency savings
Reference:	I7
LFP work strand:	Corporate & Management Overheads
Directorate:	Resources and Regeneration
Head of Service:	Selwyn Thompson
Service/Team area:	Financial Services Division
Cabinet portfolio:	Resources
Scrutiny Ctte(s):	Public Accounts

2. Decision Route			
Saving proposed:	Key Decision Yes/No	Public Consultation Yes/No	Staff Consultation Yes/No
a) Finance non-salary budget and vacancies review	No	No	No

3. Description of service area and proposal
Description of the service area (functions and activities) being reviewed:
Finance – The Council’s Finance Division provides a statutory accounting function; financial, business and management accounting advice to management as well as a payroll and pension function.
Saving proposal
There will be a review of non-salaried budgets following the recent restructure of the finance function. In addition to this, a number of staffing vacancies have been held pending a more detailed review which is planned to take place in April 2016. It is expected that a saving of £100k could be achieved in 2016/17 with minimal impact on staffing with a further £150k to follow in 2017/18.

4. Impact and risks of proposal
Outline impact to service users, partners, other Council services and staff:
The Finance Division will need to continue working with limited flexibility in its staffing budget to deal with workload pressures should existing workloads not be reduced or contained following the recent restructure/downsizing and further savings being delivered.
Outline risks associated with proposal and mitigating actions:
The finance function has already delivered significant revenue budget savings over the course of the last three years which has had an impact on lessening the team’s capacity. In delivering these further savings for 2016/17 and 2017/18 it will become increasingly important to ensure a more direct focus on our statutory responsibilities whilst at the same time equipping budget holders with the appropriate tools and knowledge to be more self-reliant in managing their budgets

Is a full service equalities impact assessment required: Yes / No

No

9. Human Resources impact

Will this saving proposal have an impact on employees: Yes / No

No

10. Legal implications

State any specific legal implications relating to this proposal:

There are no specific legal implications

11. Summary timetable

Outline timetable for main steps to be completed re decision and implementation of proposal – e.g. proposal, scrutiny, consultation (public/staff), decision, transition work (contracts, re-organisation etc..), implementation:

Month	Activity
August 2015	Proposals prepared (this template and supporting papers – e.g. draft public consultation)
September 2015	Proposals submitted to Scrutiny committees leading to M&C on 30 September
October 2015	Consultations ongoing
November 2015	Consultations ongoing and (full decision) reports returned to Scrutiny for review
December 2015	Consultations returned to Scrutiny for review leading to M&C for decision on 9 December
January 2016	Transition work ongoing
February 2016	Transition work ongoing and budget set 24 February
March 2016	Savings implemented

1. Savings proposal	
Proposal title:	Streamlining procurement and legal administration.
Reference:	I8
LFP work strand:	Corporate & Management Overheads
Directorate:	Resources & Regeneration
Head of Service:	Kath Nicholson
Service/Team area:	Legal (Procurement/Administration)
Cabinet portfolio:	Resources
Scrutiny Ctte(s):	Public Accounts

2. Decision Route			
Saving proposed:	Key Decision Yes/No	Public Consultation Yes/No	Staff Consultation Yes/No
a) Minor reorganisation of Legal Services to incorporate Procurement function	No	No	yes

3. Description of service area and proposal
Description of the service area (functions and activities) being reviewed:
The procurement team provides advice to commissioners across the Council, maintains the Council's contract register and makes reports available to central government about council procurement activity through overseeing the Council's procurement portal.
Saving proposal
The procurement function transferred to Legal in 2015. With the merging of the two functions, legal and procurement, a mini-reorganisation of administrative support will net out a £50k salaries saving.

4. Impact and risks of proposal
Outline impact to service users, partners, other Council services and staff:
Senior procurement practitioner posts will be recruited to minimising the impact on meeting the organisation's needs from the changes being made. However, reorganisation of the administrative support to legal/procurement will provide scope for the deletion of two posts.
The proposal should provide a more stable and resilient procurement team working closely with contract lawyers.
Outline risks associated with proposal and mitigating actions:
Inability to recruit to senior positions. External advert for procurement manager at appropriate grade

4. Impact and risks of proposal

1. Savings proposal	
Proposal title:	Reduction in Human Resources Support
Reference:	I9
LFP work strand:	Corporate & Management Overheads
Directorate:	Resources & Regeneration
Head of Service:	Andreas Ghosh
Service/Team area:	Human Resources
Cabinet portfolio:	Resources
Scrutiny Ctte(s):	Public Accounts

2. Decision Route			
Saving proposed:	Key Decision Yes/No	Public Consultation Yes/No	Staff Consultation Yes/No
a) HR Support	N	N	Y
b) TU Secondments	N	N	Y
c) Graduate Scheme	N	N	N
d) Social Care Training	N	N	N
e) Realign Schools HR Recharges	N	N	N

3. Description of service area and proposal

Description of the service area (functions and activities) being reviewed:

The Council's HR services are made up of a strategic core of staff providing industrial relations, organisation change and development and business partner support, as well as recruitment and clearance function, reorganisation support and employee advice and learning and development provision.

The division supports service to the schools in the production of people management policies, occupational health service, trade union secondments, DBS checks and industrial relations.

A substantial part of the divisions learning resource also provides adult social care learning which in turn is substantially focussed on the private and voluntary sector.

Saving proposal

- a) To reduce the provision of support to managers, including advice on employee relations, reorganisations, change management, recruitment and learning. In the process review employee support provision such as Investors in People accreditation.
- b) To review the trade union secondment arrangements to reflect a reduction in the number of Council employees.
- c) Reduce support provision available to the graduate scheme and restricting number of future graduates taken on to the current limit of 2 per annum.
- d) Reduce social care training, including that provided to the private, voluntary and independent sector, by incorporating basic training such as induction and safety

3. Description of service area and proposal	
	into the provider requirement, rationalise the number of programmes on any one subject, developing improved digital learning activity and improved attendance at classroom based programmes.
e)	Realign the HR recharges to the schools for recruitment, occupational health, policy advice, HR systems. DBS clearance, trade union secondments and employee relations.
f)	

4. Impact and risks of proposal	
Outline impact to service users, partners, other Council services and staff:	
The proposals will reduce the support on human resources matters to managers, as well as the Council's compliance with people management policy and objectives. The proposals will reduce the social care training support in the community which will be mitigated by increasing provider requirements on training.	
Outline risks associated with proposal and mitigating actions:	
The proposals are a risk to effective employee relations and the Council's ability to act as a single employer	

5. Financial information			
Controllable budget:	Spend £'000	Income £'000	Net Budget £'000
			2,100

Directorate:	Customer services
Head of Service:	Duncan Dewhurst
Service/Team area:	Technology and Change
Cabinet portfolio:	Resources
Scrutiny Ctte(s):	Public Accounts

2. Decision Route			
Saving proposed:	Key Decision Yes/No	Public Consultation Yes/No	Staff Consultation Yes/No
a) Revising infrastructure support arrangements	Yes	No	Yes
b) Contract, systems and supplies review	Yes	No	No
c) Committee Papers: move to digital access only	No	No	No

3. Description of service area and proposal
Description of the service area (functions and activities) being reviewed:
<p>The Technology and Change division provides IT services to the whole Council through a mixture of in-house provision and contracted services. The central IT budget is around £7m and across the Council expenditure on IT and related IT services accounts for a further £3m.</p>
Saving proposal
<p>The internal IT teams were restructured last year (to deliver savings £750k agreed in 14-15). As agreed by Mayor and Cabinet the Technology and Change division is currently in the process of implementing a major upgrade of Lewisham's IT infrastructure which will provide modern, stable and flexible IT. Building on this, as part of the IT strategy, the Head of Technology and Change has reviewed the potential to make savings in other parts of the Council's budget and is proposing to make further savings of £1m in 16-17 and a further £1m in 17-18.</p> <p><u>16-17 savings</u></p> <p>The savings in 16-17 will come from two areas:</p> <ul style="list-style-type: none"> - Revising our arrangements for supporting our infrastructure (our current arrangements with Capita come to an end on April 1 2016); and - Reviewing contracts, systems and supplies to make best use of the new infrastructure.

3. Description of service area and proposal

Revising infrastructure support arrangements

As agreed by Mayor and Cabinet we are currently investigating the feasibility of setting up a shared infrastructure support service with London Borough of Brent. No further decisions are required at this stage – a final decision on whether to proceed with the shared service will need to be taken by Mayor and Cabinet later in the autumn. Nevertheless indicative financial modelling suggests that savings in the region of £0.5m pa could be feasible.

Reviewing contracts, systems and supplies

Once the new IT infrastructure is in place there will be opportunities to deliver further savings from a combination of:

- Retendering existing contracts and better supplier management
- Reducing the amount of paper the Council uses, for example through making better use of mobile devices
- Reducing the cost of replacing our desktop estate through the use of 'thin clients'
- Reducing the use of bespoke systems

As part of the IT strategy the Head of Technology and Change is currently reviewing the options for making savings in these areas and will look to put in place a plan of action to coincide with the introduction of the new infrastructure. This plan will be in line with the Council's existing strategy of getting better value for money. Mayor and Cabinet may need to take further decisions on to realise these savings – for example where new contracts need to be awarded – which will be subject to the usual decision making process.

As a result of the changes being made it may be necessary to restructure staff posts in either 16-17 and / or 17-18, which would be subject to the usual consultation process.

17-18 savings plans

17-18 savings plans are yet to be developed but it is expected that further savings could be made to contracts and through further sharing with other partners.

Electronic access to committee reports and ending of paper copies

Moving toward being a paperless council will provide the scope for significant reduction in paper and printing costs. Costs of committee papers alone could provide a reduction in printing costs of between £90,000 and £100,000. More detailed work will be undertaken to substantiate this for effecting a future saving.

4. Impact and risks of proposal

Outline impact to service users, partners, other Council services and staff:

IT underpins every service that the Council delivers and is a critical function for all staff.

4. Impact and risks of proposal

Electronic access to committee reports and ending of paper copies

Timing of delivery of this savings will have to be managed alongside the development of the new ICT arrangements. Therefore the risks relate to effective implementation of a stable system to support electronic access to relevant papers and for elected members access and the public access to committee papers.

Outline risks associated with proposal and mitigating actions:

Risk: migrating to new infrastructure support arrangements may take longer than expected. Mitigation: taking a decision on the future of the infrastructure support arrangements as soon as possible.

Risk: changes in our infrastructure support arrangements could put at risk the stability of key systems. Mitigation: ensuring that our new infrastructure support arrangements can deal with both the new infrastructure and existing legacy infrastructure.

Risk: reducing budgets without a clear understanding of where savings are going to come from could put at risk the smooth running of key systems. Mitigation: ensuring that there is a clear plan for delivering savings from systems, supplies and contracts before proceeding

Electronic access to committee reports and ending of paper copies

Risks will be mitigated by forward planning for the roll out of the new arrangements
