3. Description of service area and proposal

Description of the service area (functions and activities) being reviewed:

The services and activities being reviewed all provide support to schools in support of their responsibilities.

The Local Authority already charges for services provided to schools with an annual income of £3.3m (2015/16). The proposals set out below would increase the level of traded services by £0.4m representing 0.2% of the totality of schools' delegated budgets.

Saving proposal

a) To increase the charges to schools for all existing SLAs 2.5% above rate of inflation to raise **£100k** in 2016/17. This would better reflect the actual cost of delivering the services. The increase represents 0.2% of the budgets delegated to schools.

b) This proposal is to increase the proportion of **Attendance and Welfare services** traded with schools and reduce the cost of the core service. The increased income is estimated at **£150k**. While the attendance of vulnerable pupils would continue to be the subject of attendance casework centrally, schools would be charged for routine casework currently undertaken as part of the core service. Under this proposal, the AWS would better reflect the statutory duties of the LA and there would be greater clarity about the responsibilities that schools must deliver either by doing the casework themselves or paying for the LA to undertake it. Primary schools will in the main be affected by this proposal as secondary schools already have the in-school resources to absorb the impact of this change.

The current council funded budget of £498k represents a cost of £19 per pupil which benchmarks against average English spending of £12 per pupil. The budget has in last two years been reduced to move towards national and local comparators and this further saving would achieve the English average benchmark.

c) The **Schools Strategic IT** post grew out of the BSF programme providing advice on whole school ICT infrastructure set up and options for curriculum IT devices to support the curriculum. Most recently the role has supported primary expansion works and the delivery of the new special school. The proposal is that the role is to be

3. Description of service area and proposal

covered by the DSG through charges to schools or to no longer provide the service. The post currently costs **£118k**.

d) Increase in charges for training by **Education Psychology service** to PVI child care providers raising £5k.

e) **School Estates:** Some savings have already been made through the voluntary severance scheme releasing **£30k** not already accounted for in previous savings proposals.

It is anticipated a further efficiency of the estates team can release savings of **£190k** through greater collaboration within the Council and a reduction in provision for property consultancy fees.

f) **Free School Meals Eligibility Assessment:**

It is proposed to transfer the service to the Customer Services financial assessments team. The saving would delete the remaining GF contribution of £17k towards costs but there would still be a cost borne by the DSG. This will be achieved by the deletion of a vacant post and a change of line management.

g) **The Standards and Achievement Team** monitors the performance of schools, identifies where action is required to secure improvement and broker or provide that support to the schools requiring it. A management restructure is in process which would ensure the senior capacity required for the school improvement agenda especially for secondary schools and continue work for primary and early years while delivering savings. The re-organisation would deliver **£50k** of savings through reduction in staffing budget, with the remaining staffing/commissioning budget sufficient to meet the local authority's duties to secure improvement of schools.

The reduction in staffing costs will not result in redundancies because of existing vacancies.

4. Impact and risks of proposal

Outline impact to service users, partners, other Council services and staff:

General

School budgets and the dedicated schools grant have come under increasing pressure over the last few years. For 2015/16, funding allocated to schools in respect of children with special educational needs has been reduced by £2.1m to help balance the central DSG budget. The Schools Forum agreed to this change, recognising that schools had already been funded for some of these costs within their delegated budgets.

Recent publicity, nationally, has highlighted that real terms funding of schools budgets will reduce over the life of this parliament by at least 7% in real terms if the funding level per pupil stays cash frozen. Some forecasts suggest up to 12% (an analysis by the Institute of Fiscal Studies).

A 7% reduction would reduce schools' spending power across Lewisham by £17m. There are other budgetary pressures on the Dedicated Schools Grant that will need to be funded. The national rates revaluation which will take place in 2017 is expected to increase the rates bills falling to the DSG. Some of this pressure will however be

4. Impact and risks of proposal

eased by the continued increase in pupil numbers.

In respect of the individual proposals:

a) The increased income would represent 0.2% of the delegated budgets of schools so the impact on both take up of services and on schools budgets will be minimal.

b) There is a risk that if schools do not buy in to this, that children who have some vulnerabilities and who are not in school may be missed. However the LA's 'missing from education' procedures should mitigate this. If the service is not successful in securing buy back from schools, there is a risk that up to 3 FTE staff may need to be made redundant.

c) Schools not buying the Strategic IT service may make poorer decisions on renewal of their IT infrastructure and equipment.

d) The increase in training charges by EPS will not have a significant impact over 120 child care providers in the borough

e) There will be a reduced capacity to respond to major incidents across the schools estate that no one individual school could manage on its own.

f) It should be possible to maintain the free school meals eligibility service with the budget reduction of £17k

g) There will be reduction in support to schools which are good and outstanding, with a greater expectation that they are sustained and improved through school to school support.

Outline risks associated with proposal and mitigating actions:

General

It is likely that there will come a point when schools feel the increased charges through SLAs will result in them having to purchase fewer services, a reduced level of support or reducing expenditure on other services in support of pupils' education. This will make the traded services much more sensitive to price increases than has been the case in the past.

In order to mitigate the likelihood of the increased levels of income failing to be achieved there will be consultation with schools forum on the proposals with the opportunity to influence the final shape of the proposals for the services to be charged for and the value of charges. Other mitigation for each specific proposal is set out below:

a) Consultation with schools forum with the results of that available for subsequent scrutiny and decision making

b) There is a need to ensure that schools have robust systems in place to identify vulnerable children and refer to the appropriate agencies.

c) Promotion of the IT goods and services framework contract negotiated by the Council for schools

d) n/a

4. Impact and risks of proposal

e) Closer alignment of service with corporate property services and wider spread of expertise to draw upon.

f) There is a need to ensure that the close working with the free entitlement Child care provision team to ensure national objectives are being delivered. The implementation of IT solutions for the application process should assist this.

g) There continues to be a challenge concerning the improvement of secondary school results however the aim is, that through increased use of school to school support and the focussing of the savings on management posts, there will not be an impact on the support and challenge provided to schools. It may however take until 2017/18 for the changes and savings to be achieved fully.

10. Legal implications
State any specific legal implications relating to this proposal:
<p>Section 443 of the Education Act 1996 requires local authorities to make arrangements to enable them to establish (as far as possible) the identity of children in their area who are not receiving a suitable education. Section 444 imposes a statutory responsibility of local authorities to ensure that parents fulfil their legal duty that children of compulsory school age receive suitable, efficient full-time education either by regularly attending school or otherwise. Section 446 of the Education Act 1996 requires that proceedings for offences under sections 443 or 444 can only be instituted by a local authority.</p> <p>The local authority is statutorily required to ensure that its education and training functions are exercised with a view to promoting high standards, fulfilment of potential and fair access to opportunity for education and training. The proposals</p>
