12. Decisions made by Mayor and Cabinet on 28 February 2018

Establishment of Lewisham Learning Partnership

The Executive Director for Children and Young People introduced the report.

Councillor Sorba, Chair of Children and Young People Select Committee stated that the Select Committee had discussed the proposed Partnership, and he had some reservations about the proposal. Councillor Sorba said he was concerned that the long-term plan was for the Partnership to become a separate Legal Entity. He said given the challenges faced by Lewisham schools the Partnership should concentrate on addressing those challenges, instead of offering its services externally.

Business Panel commented that funding was from public money and the School Improvement budget, and there was no advantage to the Council if the Partnership became a separate Legal Entity. The Executive Director for Children and Young People notified Panel Members that there was no discussion on separate Legal Entity status currently within the Partnership, as this was not a priority. She said ultimately it would be for the Partnership to decide how they operate, but for now it has to determine its structure.

Panel Members asked about the equalities implications following the secondment of a Headteacher to the role of Interim Director to the Partnership. The Executive Director for Children and Young People said an agreed process for the appointment was followed, and the interim position would run until the end of the financial year. This would be followed by an open permanent recruitment process, which would be widely advertised.

Panel Members raised concerns about accountability and funding , especially if the separate Legal Entity status was pursued. Panel Members were concerned that accountability and proper monitoring would not be done, as it would not be within the Council’s power to ensure things were done properly.

Panel Members asked who would be setting the targets and objectives of the Partnership and were told the schools would set their own targets with the overarching targets being set by the Partnership.

Monsignor Rotheron said there was a great deal of enthusiasm associated with this Partnership, but he would urge that some key indicators and objectives be put in place, plus regular reports to the Education Business Panel to prevent the Partnership becoming another consultative body. It was commented that education was a main driver in improving prosperity, and as a Council Lewisham should be focussing on improvement.

RESOLVED that:

- i. the decision of the Mayor be noted.
