Jason then introduced the first item on the agenda.

Downham Assembly Fund

Tonight is the launch of the Downham and Whitefoot Local Assembly Fund for 2012/13. This year there is a total of £18,750 available to each of the wards to deliver projects which will work towards addressing the five ward priorities and one or more actions within the action plan.

The funding has been split this year to allow opportunity for newly formed groups to apply for funding as well as established groups and organizations working with the wards.

The funding will be allocated as outlined below:

- 2 projects to be capped at £4,000
- 4 amounts of up to £500 seed funding for first time projects
- Remaining projects will be capped at £2,000

The Assembly will choose one of the successful £500 projects to follow from start to finish. This project will provide regular updates at assembly meetings, where the assembly can offer advice as well as help the project in its development.

All applications are to be submitted no later than Monday 10 September 2012, 12pm. A vote will take place at the following assembly meeting in the winter.

There has also been a change within the criteria should your group, organisation receive funding. The coordinating group felt that project

providers should take a more active role within assembly meetings and that this should be ongoing throughout the year, and not just when there is a voting event. Please see the requirement below.

- All applicants who receive funding shall be required to attend at least two out of three assembly meetings and bring along 2 / 3 service users or members of their group or organisation to those meetings.

The cook and eat session are still ongoing and are being delivered through Nutritious Delicious.

Community Education Lewisham

Therese Bush (Partnership and Business Development Manager) came along to talk to the assembly about Community Education Lewisham and the funding bid which they have applied for. Should they be successful then CEL shall look to conduct further consultation with local residents to establish their needs and what they would like to see in the way of adult education delivered locally.

There was one question from the assembly, please see below.

Q. Are there concessions for disabled people to help them to access classes?

A. Funding is under pressure and classes are already subsidized by government costing just £4 per hour. Not everybody can afford this but its not possible to reduce costs any further in the current climate.

For the full presentation please see the attached document.
