

**Decisions taken by the Sustainable Development Select Committee on Thursday, 20 July 2017**

Agenda Item No	Topic	Decision
----------------	-------	----------

**Part A – Items considered in public**

<b>A3</b>	Responses from Mayor and Cabinet	<p>3.1 The Committee requested confirmation that the letter from the Mayor to neighbouring local authorities about home energy conservation and joint working had been sent. It asked to be updated regarding any responses.</p> <p>3.2 <b>Resolved:</b> that the Committee request that it be kept up to date with responses to the Mayor's letter about joint working and home energy conservation.</p>
<b>A4</b>	Fire safety in tall buildings	<p><b>Resolved:</b> that the report be noted. The Committee also agreed that it would write to the Chair of the London Fire and Emergency Planning Authority to encourage the commissioning of a public information campaign about fire safety. In addition, the Committee agreed that it would share its views with Mayor and Cabinet as follows:</p> <ul style="list-style-type: none"> <li>• The Committee welcomes officers' report on fire safety in tall buildings. The Committee recommends that there be an ongoing commitment to full openness and clarity regarding the fire safety work taking place in the borough.</li> <li>• The Committee requests that a publicly available list of all tall buildings in the borough be produced for ease of reference. This should contain a summary of fire safety activities, that can be cross checked against each building, with the action taken and assurances provided to date. This would include, for example, dates on key building control actions, whether private or council, fire safety inspections, LFB inspections, cladding checked or not etc.</li> <li>• Officers have agreed to provide additional information about the Council's responsibility for buildings for which it has provided building control services. The checklist for buildings (requested above) would need to include actions taken by officers to meet all building control requirements in those buildings. This information should also be provided to the fire service.</li> <li>• The Committee is concerned about the complex technical nature of some of the materials</li> </ul>

		and machinery being used in new developments. The Committee therefore recommends that officers be tasked with considering what expert advice the appropriate Council Committees need when making decisions in relation to new developments.
A5	Implementation of the cycling strategy	<p><b>Resolved:</b> that the report be noted. The Committee also agreed to share its views with Mayor and Cabinet, as follows –</p> <ul style="list-style-type: none"> <li>• The Committee recommends that there should be a communications campaign to encourage the uptake of the Council's cycle proficiency training.</li> <li>• The Committee recommends that the programme of activities in the draft strategy be revaluated to determine how the dates for implementation could be brought forward. The Committee would particularly welcome efforts to bring forward the work on the Transport for London Road Network.</li> </ul>
A6	Waste strategy implementation and performance monitoring	<b>Resolved:</b> that the report be noted.
A7	Bakerloo line extension update	<b>Resolved:</b> that the report be noted.
A8	Select Committee work programme	<b>Resolved:</b> that the date of the next meeting be moved to 13 September; it was also agreed that information about the Council's key planning policies would be shared with Members of the Committee so that a further steer could be provided to officers in Planning about their report for September.
A9	Items to be referred to Mayor and Cabinet	<b>Resolved:</b> that the Committee's comments under items four and five be referred to Mayor and Cabinet.
