

**Decisions taken by the Sustainable Development Select Committee on Wednesday, 13 March 2024**

Agenda Item No	Topic	Decision
<b>Part A – Items considered in public</b>		
<b>A3</b>	Responses from Mayor and Cabinet	That the responses from Mayor and Cabinet be noted.
<b>A4</b>	Planning Service: Local Democracy Review update	That the information requested by the Committee (under 4.3) be provided and that report be noted.
<b>A5</b>	Flood risk management	That the report be noted. It was also recommended that there be greater engagement (through a variety of accessible channels, including making the ‘postcode search’ for flooding risk more visible on the Council website) with residents about the risk of flooding – and the actions that could be taken to increase public engagement on the issues to enhance community resilience. The Committee also strongly commended and supported the work of the Climate Resilience Team.
<b>A6</b>	Active travel update	That the report be noted. Members also welcomed the opportunity to review the integrated active travel strategy – and recommended that funding should be sought from dockless bike companies to provide cycle training. Further information would also be welcomed relating to accidents and collisions involving dockless bikes.
<b>A7</b>	Implementation of the transport strategy	That the report be noted. It was also agreed that Cllr Krupski would be asked to follow up with TfL about a pedestrian crossing outside Lewisham Islamic Centre (following a question from members regarding a petition from members of the public).
<b>A8</b>	Select Committee work programme	That the completed work programme report be noted – and that the Committee’s suggestions for the 2024-25 programme be submitted for consideration by members of the Committee in the new municipal year.
