Lewisham 2023 Outcomes Report

Attainment and pupil destinations

January 2024

Early Years and Key Stage 1 (KS1) Attainment

- **Attainment –** Pupils in Lewisham outperformed statistical neighbours, London and England averages in the EYFSP, but then ranked at the bottom of statistical neighbours and London boroughs for Phonics and KS1 performance

Key Stage 2 (KS2) Attainment and Progress

- **Attainment -** The proportion of pupils reaching the expected standard in reading, writing and maths (RWM) was above the England average but placed Lewisham towards the bottom of statistical neighbours and London boroughs
- **Progress -** Lewisham pupils made more progress than expected in reading and maths, but less than expected in writing. Free School Meals (FSM) eligible pupils had progress scores lower than the England averages in all three subjects
- **Gender -** Lewisham's gender gap in the proportion of pupils reaching the expected standard in RWM was wider than the gap seen in statistical neighbours, London and England. Following the trend across England, female pupils had higher progress scores than male pupils in reading and writing, but lower in maths
- **Disadvantage -** The disadvantage gap in Lewisham was larger than the gap seen across statistical neighbours and London, but slightly narrower than the gap in England for the proportion of pupils achieving the expected or higher standard in RWM . However, there was a much wider disadvantage gap for reading and maths progress scores compared to the gap in England.

Key Stage 4 (KS4) Attainment

- **Attainment -** Lewisham's Attainment 8 score was below England, London and statistical neighbour averages
- **Progress -** Despite an improvement from 2022 to 2023, Lewisham's Progress 8 score was below England, London and statistical neighbour averages
- **EBacc -** EBacc entries are a relative strength for Lewisham, with the proportion of Lewisham pupils entering the EBacc placing Lewisham in the top quartile of all England local authorities
- **Gender -** The gender gap in average Attainment 8 scores has continued to narrow but was larger than the gap seen in England, London or statistical neighbours
- **Disadvantage -** Lewisham's disadvantage gap in average Attainment 8 scores was wider than the gaps in statistical neighbours and London but narrower than the gap seen across England

Key Stage 5 (KS5) Attainment

- **Attainment -** Lewisham had a stronger performance in vocational subjects than academic subjects at KS5. The APS for applied general was in line with the England averages, while the APS for academic entries placed London in the bottom quartile of all England local authorities
- **Gender -** Lewisham's gender gap for academic entries was wider than the gap in statistical neighbours, London and England while the gap for vocational entries was narrower
- **Disadvantage -** The disadvantage gap for academic entries was narrower in Lewisham compared to statistical neighbours, London and England but this was mainly driven by students not classified as disadvantaged having a worse performance in Lewisham, rather than a stronger performance from disadvantaged pupils

Qualification to Level 2 and 3 by age 19

- **Level 2 -** The proportion of pupils qualified to Level 2 by age 19 in Lewisham was consistently above England averages but tended to fall below London and statistical neighbour averages, particularly when including English and maths
- **Level 3 -** Lewisham had higher proportions of students qualified to Level 3 by age 19 compared to England. However, the rates of FSM eligible students qualified to Level 3 was one of the lowest across London

This report explores Lewisham's school outcomes data, including primary and secondary attainment and pupil destinations. The report highlights where Lewisham's performance is notably different to statistical neighbours, London or England averages, and where performance has changed markedly over time. Additionally, the analysis highlights differences in performance between pupil groups, with a focus on gender and disadvantage.

Please note that performance of ethnic groups was shared at the Children's and Young People Select Committee on the 11th January 2024.
The analysis looks at the continued effect of the COVID-19 pandemic and the disproportionate impact this has had on different pupil groups. The 2020 data has been removed where necessary to allow for pre-pandemic comparisons with 2019.

This report uses the latest available published DfE data. Note that in some cases, 2023 data is not yet available.

How to interpret the analysis

Each section of this report includes a graphical summary of outcomes. Each indicator in the summary has:

- A trend line to show Lewisham's change over the past three or four years (subject to the availability of the data)

- A rank of Lewisham among its ten statistical neighbours, among the 32 local authorities in London (33 where the City of London is included for primary measures) and among the 151 local authorities in England (although in some instances some data is suppressed and therefore excluded from the rankings)

- The latest difference to Lewisham's statistical neighbour average and the England average. Note that if the indicator is a percentage the difference is show in percentage points; for example, 20% vs 23% is a 3% point difference. If the indicator is a point score (such as Attainment), the difference is shown in points

- A three- or four-year trend showing how Lewisham performs against England using the same basis as the national bar chart. The latest year of data is on the right.

Changes on the prior year for Lewisham and England are shown and colour coded. "-" means no change

The best performing local authority in London has a rank of 1st, while the worst is ranked 32nd

The best performing local authority has a rank of 1st, while the worst is ranked 151st

A 3- or 4-year trend of how Lewisham compares to England. Latest year is on the right

	Lewisham						Statistical Neighbours			London		England							
	2019	2021^	2022	2023	Latest Change	Trend	Latest Avg.	LA vs Stat. Neigh.		Latest Avg.	LA Rank	2019	2021^	2022	2023	Latest Change	LA vs England		Trend

Trend lines show the best year's performance with a green dot, and the worst with a purple dot. Latest year is on the right of the line

The best performing statistical neighbour has a rank of 1st, while the worst is ranked 11th

Ranks in the top/bottom quartile amongst statistical neighbours, in London and in England are highlighted

The latest difference columns show how Lewisham compares to statistical neighbour and England averages. These are green where Lewisham performs better, and purple when worse
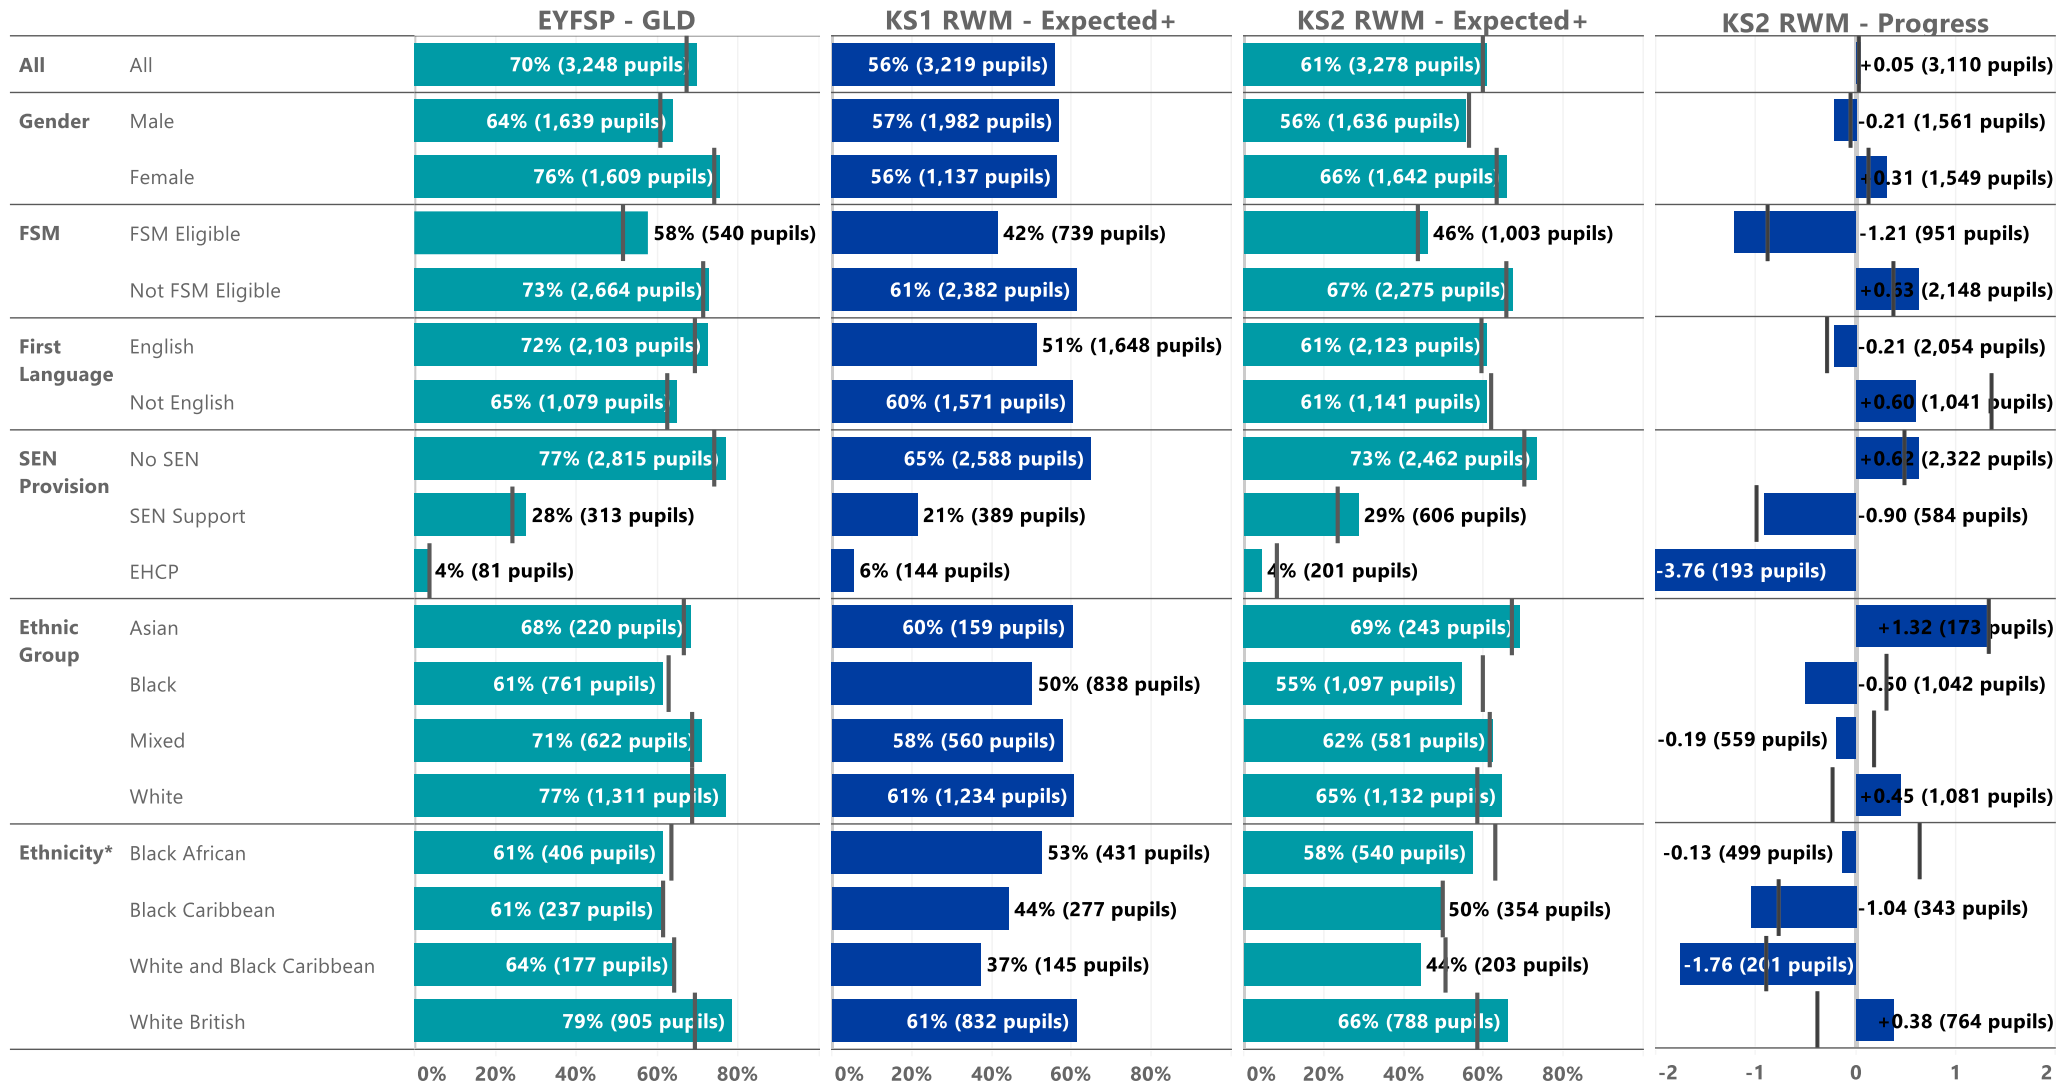

B. Primary Attainment

Analysis of primary attainment and progress data

Primary Phase Summary of Outcomes by Pupil Group

		EYFSP - GLD	KS1 RWM - Expected+	KS2 RWM - Expected+	KS2 RWM - Progress
All	All	70% (3,248 pupils)	56% (3,219 pupils)	61% (3,278 pupils)	+0.05 (3,110 pupils)

- https://www.gov.uk/government/collections/statistics-gcses-key-stage-4 Section: GCSE and equivalent results, including pupil characteristics
- https://www.gov.uk/government/collections/statistics-attainment-at-19-years Section: A levels and other 16 to 18 results
- https://www.gov.uk/government/collections/statistics-attainment-at-19-years Section: Level 2 and 3 attainment
- Lewisham internal data (denoted by dark blue bars in Key Stage 4 Summary of Outcomes by Pupil Group)

Pupil Destinations

- https://www.gov.uk/government/collections/statistics-destinations Section: Destinations after key stage 4 and 16 to 18 (KS5) study

Statistical neighbours are a way of benchmarking your performance against other local authorities that have similar characteristics, rather than simply being geographically close. The statistical neighbours for Lewisham are listed below along with their approximate school population size. Statistical neighbour averages in this report are non-weighted averages of these 11 local authorities (including Lewisham). Note that all of Lewisham's statistical neighbours are in London.

Rank (1 = Most alike)	LA	School population
-	Lewisham	38,000
1	Lambeth	37,000
2	Croydon	58,000
3	Haringey	38,000
4	Waltham Forest	43,000
5	Hackney	34,000
6	Southwark	43,000
7	Enfield	56,000
8	Brent	49,000
9	Greenwich	45,000
10	Hammersmith and Fulham	20,000
