Making fair financial decisions Guidance for decision-makers

3rd edition, January 2015

Introduction

With major reductions in public spending, public authorities in Britain are being required to make difficult financial decisions. This guide sets out what is expected of you as a decision-maker or leader of a public authority responsible for delivering key services at a national, regional and/or local level, in order to make such decisions as fair as possible.

The public sector equality duty (the equality duty) does not prevent you from making difficult decisions such as reorganisations and relocations, redundancies, and service reductions, nor does it stop you from making decisions which may affect one group more than another group. The equality duty enables you to demonstrate that you are making financial decisions in a fair, transparent and accountable way, considering the needs and the rights of different members of your community. This is achieved through assessing the impact that changes to policies, procedures and practices could have on people with different protected characteristics.

Assessing the impact on equality of proposed changes to policies, procedures and practices is not just something that the law requires, it is a positive opportunity for you as a public authority leader to ensure you make better decisions based on robust evidence.

What the law requires

Under the equality duty (set out in the Equality Act 2010), public authorities must have 'due regard' to the need to eliminate unlawful discrimination, harassment and victimisation as well as to advance equality of opportunity and foster good relations between people who share a protected characteristic and those who do not.

The protected characteristics covered by the equality duty are: age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation. The duty also covers marriage and civil partnerships, but only in respect of eliminating unlawful discrimination.

The law requires that public authorities demonstrate that they have had 'due regard' to the aims of the equality duty in their decision-making. Assessing the potential impact on equality of proposed changes to policies, procedures and practices is one of the key ways in which public authorities can demonstrate that they have had 'due regard'.

It is also important to note that public authorities subject to the equality duty are also likely to be subject to the Human Rights Act 1998. We would therefore recommend that public authorities consider the potential impact their decisions could have on human rights.

Aim of this guide

This guide aims to assist decision-makers in ensuring that:

- The process they follow to assess the impact on equality of financial proposals is robust, and
- The impact that financial proposals could have on people with protected characteristics is thoroughly considered before any decisions are arrived at.

We have also produced detailed guidance for those responsible for assessing the impact on equality of their policies, which is available on our website at www.equalityhumanrights.com

The benefits of assessing the impact on equality

By law, your assessments of impact on equality must:

- Contain enough information to enable a public authority to demonstrate it has had 'due regard' to the aims of the equality duty in its decision-making
- Consider ways of mitigating or avoiding any adverse impacts.

Such assessments do not have to take the form of a document called an equality impact assessment. If you choose not to develop a document of this type, then some alternative approach which systematically assesses any adverse impacts of a change in policy, procedure or practice will be required.

Assessing impact on equality is not an end in itself and it should be tailored to, and be proportionate to, the decision that is being made.

Whether it is proportionate for an authority to conduct an assessment of the impact on equality of a financial decision or not depends on its relevance to the authority's particular function and its likely impact on people with protected characteristics.

We recommend that you document your assessment of the impact on equality when developing financial proposals. This will help you to:

- **Ensure you have a written record of the equality considerations** you have taken into account.
- **Ensure that your decision includes a consideration of the actions that would help to avoid or mitigate any impacts on particular protected characteristics.** Individual decisions should also be informed by the wider context of decisions in your own and other relevant public authorities, so that people with particular protected characteristics are not unduly affected by the cumulative effects of different decisions.

- **Make your decisions based on evidence:** a decision which is informed by relevant local and national information about equality is a better quality decision. Assessments of impact on equality provide a clear and systematic way to collect, assess and put forward relevant evidence.

- **Make the decision-making process more transparent:** a process which involves those likely to be affected by the policy, and which is based on evidence, is much more open and transparent. This should also help you secure better public understanding of the difficult decisions you will be making in the coming months.

- **Comply with the law:** a written record can be used to demonstrate that due regard has been had. Failure to meet the equality duty may result in authorities being exposed to costly, time-consuming and reputation-damaging legal challenges.

When should your assessments be carried out?

Assessments of the impact on equality must be carried out at a **formative stage** so that the assessment is an integral part of the development of a proposed policy, not a later justification of a policy that has already been adopted. Financial proposals which are relevant to equality, such as those likely to impact on equality in your workforce and/or for your community, should always be subject to a thorough assessment. This includes proposals to outsource or procure any of the functions of your organisation. The assessment should form part of the proposal, and you should consider it carefully **before** making your decision.

If you are presented with a proposal that has not been assessed for its impact on equality, you should question whether this enables you to consider fully the proposed changes and its likely impact. Decisions not to assess the impact on equality should be fully documented, along with the reasons and the evidence used to come to this conclusion. This is important as authorities may need to rely on this documentation if the decision is challenged.

It is also important to remember that the potential impact is not just about numbers. Evidence of a serious impact on a small number of individuals is just as important as something that will impact on many people.

What should I be looking for in my assessments?

Assessments of impact on equality need to be based on relevant information and enable the decision-maker to understand the equality implications of a decision and any alternative options or proposals.

As with everything, proportionality is a key principle. Assessing the impact on equality of a major financial proposal is likely to need significantly more effort and resources dedicated to ensuring effective engagement, than a simple assessment of a proposal to save money by changing staff travel arrangements.

There is no prescribed format for assessing the impact on equality, but the following questions and answers provide guidance to assist you in determining whether you consider that an assessment is robust enough to rely on:

- **Is the purpose of the financial proposal clearly set out?**

A robust assessment will set out the reasons for the change; how this change can impact on protected groups, as well as whom it is intended to benefit; and the intended outcome. You should also think about how individual financial proposals might relate to one another. This is because a series of changes to different policies or services could have a severe impact on particular protected characteristics.

Joint working with your public authority partners will also help you to consider thoroughly the impact of your joint decisions on the people you collectively serve.

Example: A local authority takes separate decisions to limit the eligibility criteria for community care services; increase charges for respite services; scale back its accessible housing programme; and cut concessionary travel. Each separate decision may have a significant effect on the lives of disabled residents, and the cumulative impact of these decisions may be considerable. This combined impact would not be apparent if the decisions were considered in isolation.

• **Has the assessment considered available evidence?**

Public authorities should consider the information and research already available locally and nationally. The assessment of impact on equality should be underpinned by up-to-date and reliable information about the different protected groups that the proposal is likely to have an impact on. A lack of information is not a sufficient reason to conclude that there is no impact.

• **Have those likely to be affected by the proposal been engaged?**

Engagement is crucial to assessing the impact on equality. There is no explicit requirement to engage people under the equality duty, but it will help you to improve the equality information that you use to understand the possible impact on your policy on different protected characteristics. No-one can give you a better insight into how proposed changes will have an impact on, for example, disabled people, than disabled people themselves.

• **Have potential positive and negative impacts been identified?**

It is not enough to state simply that a policy will impact on everyone equally; there should be a more in-depth consideration of available evidence to see if particular protected characteristics are more likely to be affected than others. Equal treatment does not always produce equal outcomes; sometimes authorities will have to take particular steps for certain groups to address an existing disadvantage or to meet differing needs.

• **What course of action does the assessment suggest that I take? Is it justifiable?**

The assessment should clearly identify the option(s) chosen, and their potential impacts, and document the reasons for this decision. There are four possible outcomes of an assessment of the impact on equality, and more than one may apply to a single proposal:

Outcome 1: No major change required when the assessment has not identified any potential for discrimination or adverse impact and all opportunities to advance equality have been taken.

Outcome 2: Adjustments to remove barriers identified by the assessment or to better advance equality. Are you satisfied that the proposed adjustments will remove the barriers identified?

Outcome 3: Continue despite having identified some potential for adverse impacts or missed opportunities to advance equality. In this case, the justification should be included in the assessment and should be in line with the duty to have 'due regard'. For the most important relevant policies, compelling reasons will be needed. You should consider whether there are sufficient plans to reduce the negative impact and/or plans to monitor the actual impact, as discussed below.

Outcome 4: Stop and rethink when an assessment shows actual or potential unlawful discrimination.

• Are there plans to alleviate any negative impacts?

Where the assessment indicates a potential negative impact, consideration should be given to means of reducing or mitigating this impact. This will in practice be supported by the development of an action plan to reduce impacts. This should identify the responsibility for delivering each action and the associated timescales for implementation. Considering what action you could take to avoid any negative impact is crucial, to reduce the likelihood that the difficult decisions you will have to take in the near future do not create or perpetuate inequality.

Example: A University decides to close down its childcare facility to save money, particularly given that it is currently being under-used. It identifies that doing so will have a negative impact on women and individuals from different racial groups, both staff and students.

In order to mitigate such impacts, the University designs an action plan to ensure relevant information on childcare facilities in the area is disseminated to staff and students in a timely manner. This will help to improve partnership working with the local authority and to ensure that sufficient and affordable childcare remains accessible to its students and staff.

• Are there plans to monitor the actual impact of the proposal?

Although assessments of impact on equality will help to anticipate a proposal's likely effect on different communities and groups, in reality the full impact of a decision will only be known once it is introduced. It is therefore important to set out arrangements for reviewing the actual impact of the proposals once they have been implemented.

What happens if you don't properly assess the impact on equality of relevant decisions?

If you have not carried out an assessment of impact on equality of the proposal, or have not done so thoroughly, you risk leaving yourself open to legal challenges, which are both costly and time-consuming. Legal cases have shown what can happen when authorities do not consider their equality duties when making decisions.

Example: A court overturned a decision by Haringey Council to consent to a large-scale building redevelopment in Wards Corner in Tottenham, on the basis that the council had not considered the impact of the proposal on different racial groups before granting planning permission.

However, the result can often be far more fundamental than a legal challenge. If people feel that an authority is acting high-handedly or without properly involving its service users or employees, or listening to their concerns, they are likely to become disillusioned with you.

Above all, authorities which fail to carry out robust assessments of the impact on equality risk making poor and unfair decisions that could discriminate against people with particular protected characteristics and perpetuate or worsen inequality.

As part of its regulatory role to ensure compliance with the equality duty, the Commission monitors financial decisions with a view to ensuring that these are taken in compliance with the equality duty and have taken into account the need to mitigate negative impacts, where possible.

Appendix 5

Policy and Equalities Analysis

Policy and equality analysis of 2020-21 budget savings

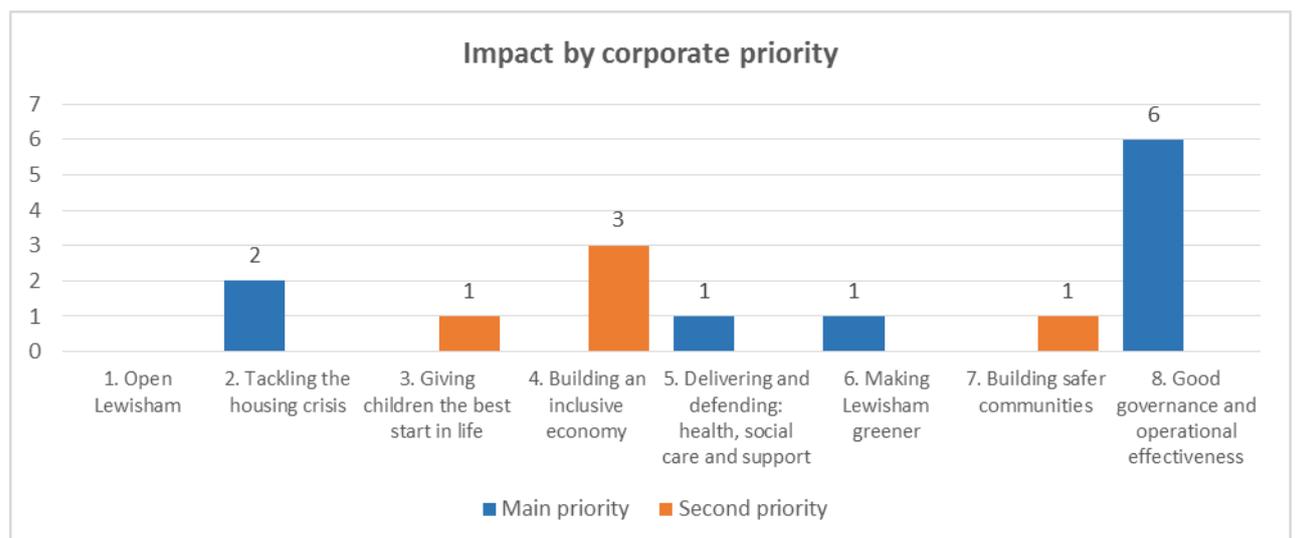

This paper provides an overall assessment of policy and equality impacts of 2020-21 budget savings proposals. In total, ten savings proposals have been considered for this paper. A summary of key points are set out under the headings below.

Impact by corporate priority

The chart below shows the impact of budget savings by corporate priority. Specifically, the charts shows the number of proposals where the impact is on the main priority or the second priority. The chart reveals that priority 8: 'good governance and operational effectiveness' has the bulk of savings proposals assigned to it, following by priority 2: 'tackling the housing crisis'. The only other priorities with savings proposals assigned to them are priority 5: 'delivering and defending: health, social care and support' and priority 6: 'making Lewisham greener', with one savings proposal each.

Of those proposals that will also impact on a second priority, 'building an inclusive economy' has three savings proposals assigned to it, whilst 'giving children the best start in life' and 'building safer communities' have one savings proposal each assigned to them.

'Open Lewisham' is the only corporate priority against which no savings proposals have been assigned.

Level of impact on main priority [positive/ neutral/ negative]

The chart below shows the impact that savings proposals will have on the main priorities, using the designation 'positive', 'neutral' or 'negative'. The chart shows that of the ten savings proposals considered as part of this analysis, it is judged that six are likely to have a 'positive' impact on the

corporate priorities, three are likely to have a 'neutral' impact and one is likely to have a 'negative' impact. The proposal identified as likely to have a 'negative' impact is the reduction in the frequency of residential street sweeping from the current once a week to once a fortnight.

Level of impact on main priority [high/ medium/ low]

The chart below shows the impact that savings proposals will have on the main priority using the 'high', 'medium' or 'low' measure. The chart shows that where information for this assessment was provided, seven savings proposals are shown as having a 'high' or 'medium' impact on 'good governance and operational effectiveness' and one proposal is shown as having a 'medium' impact on 'making Lewisham greener'.

Geographical impact

The chart below shows the geographic impact of savings proposals. In simple terms the chart shows that none of the savings proposals considered in this analysis will have a specific ward impact.

Equalities impact assessment

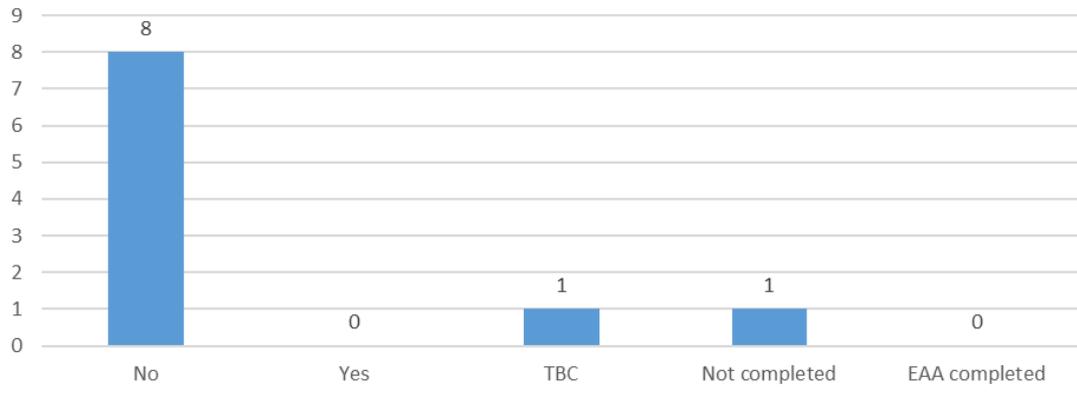

The table below sets out the impact of savings proposals on protected characteristics where these impacts are known. The table reveals that the greater number of savings proposals are not expected to having any impact on protected characteristics (N/A). However, of those that are expected to have a high or medium impact, those protected characteristics that are most likely to be impacted are sex, age, disability and ethnicity. The proposals that have been identified as likely to have a high impact on protected characteristics relate to adults social care demand management and charging.

Impact	Ethnicity	Sex	Age	Disability	Religion / Belief	Pregnancy / Maternity	Marriage & Civil Partnership	Sexual Orientation	Gender Reassignment
High		1	1	1					
Medium	2	2							
Low	1	1	1	1	1	1	1	1	1
N/A	6	5	5	7	8	8	8	8	8

Requirement for a full equality analysis assessment

The chart below shows the number of savings proposals for which a full equality analysis assessment is required. The chart shows that eight savings proposals are not expected to require an equality analysis assessment, whilst one is still to be confirmed. Information on one other was not provided in the savings proforma.

Requirement for a Full Equality Analysis Assessment

APPENDIX 9 CAPITAL PROGRAMME

February Budget report

Proposed Capital Programme 2019/20 to 2021/22

The Council's proposed Capital Programme for 2019/20 to 2021/22 is currently £344.7m, as set out in Table A1:

Table A1: Proposed Capital Programme for 2019/20 to 2021/22

July 2019 M&C Monitoring report

CAPITAL EXPENDITURE

The Capital Programme spend as at 31 May 2019 is £5.2m, which is 3% of the revised 2019/20 budget of £151.6m. At this point last year, 8% of the revised budget had been spent, with the final outturn being 82% (£71.1m) of the revised budget of £87.0m.

The table below shows the current position on the major projects in the 2019/20 Capital programme (i.e. those over £1m in 2019/20). Appendix 1 provides a reconciliation of the latest capital programme budget for 2019/20 to the version approved in the 2019/20 Budget Report. Appendix 2 shows the major projects over the three year period 2019/20 to 2021/22.

Table 16 – Capital Programme 2019/20 (Major Projects)

Other General Fund schemes	2.2	5.6	0.0	0%
TOTAL GENERAL FUND	47.0	77.6	3.0	4%
HOUSING REVENUE ACCOUNT				
Housing Matters Programme	37.3	21.0	0.3	1%
Decent Homes Programme	57.1	51.4	1.8	3%
Other HRA schemes	0.8	1.6	0.1	4%
TOTAL HOUSING REVENUE ACCOUNT	95.2	74.0	2.2	3%
TOTAL CAPITAL PROGRAMME	142.2	151.6	5.2	3%

The main sources of financing the programme are grants and contributions, and capital receipts from the sale of property assets. Some £5.8m has been received so

far this year, comprising £4.1m (net) from Housing Right to buy sales and other capital receipts and £1.7m of grants and contributions.

The paragraphs below set out further detail regarding the major capital programmes:

Schools – School Places Programme

Primary place demand has levelled off recently across London and the priority for school place delivery has shifted mainly to Special Educational Need and Disability provision. Four schemes are currently in development and delivery over the next 3 years to 2021. They include:

- Works to Ashmead Primary in Brockley to expand from one to two forms of entry. Works have commenced in April this year and are due to be completed by summer next year. The project will deliver a new standalone block adjacent to Lewisham Way, improved landscaping within the site and a new entrance and enhanced public realm area to the South of the site.
- Greenvale School, in Whitefoot ward, is Lewisham’s community special school for children and young people between the ages of 11 and 19 years who have significant learning difficulties. A new satellite facility to accommodate an additional 93 students will be constructed on the site of the former Brent Knoll building in Perry Vale. The design stage is currently underway, and works are due to commence on site in October this year and complete in time for the start of the autumn term 2020.
- New Woodlands, in Downham Ward, is a special school which supports children from 5 to 16 who have Social, Emotional and Mental Health (SEMH) special educational needs. The school recently began admitting Key Stage 4 students, and works will take place over the summer holidays this year to ensure there are adequate facilities onsite to provide a full curriculum from September 2020. This will include minor remodelling and refurbishment of the existing building, provision of a new food technology practical room, and improvements to existing landscaping and external play areas.
- Watergate is Lewisham’s primary special school for children between the ages of three and eleven years who have severe learning difficulties, located in Bellingham Ward. Approval has been granted to expand the school by 59 places through the construction of a new teaching block on the existing site. The design stage commenced in May this year, with works expected to be completed in early 2021.

Schools – Minor Works Capital Programme

The School Minor Works Programme (SMWP) is an ongoing programme of minor capital works to existing community school buildings, primarily relating to mechanical/electrical infrastructure and building fabric needs. The programme is grant funded by central government and has been consistently delivered on budget.

Highways & Bridges

The Council continues to invest resources in maintaining its highway assets, most notably through its £3.5m programme of carriageway and footway resurfacing works. The budget for carriageways allows for 60 to 70 roads to be resurfaced each year and, until 2017, the majority of these roads were those in the worst condition and categorised as “Red” – lengths of road in poor overall condition and in need of

immediate further engineering assessment with a planned maintenance soon. In 2018 we carried out resurfacing to 67 roads from the Council's programme. As a result of the resurfacing programme, the focus has now moved to works to roads classified with Condition Index of "Amber" – lengths of road which, without a planned early intervention, could result in further severe defects and move the Condition Index to "Red". Early intervention using appropriate design, based on carriageway coring information and other factors like bus routes, high volume of traffic, usage and environment will result in better value for money. There are still over 300 roads classified as Amber that require essential works and the Council's long-term investment strategy is taking effect as since 2013, the number of annual insurance claims against the Council for carriageway defects has reduced by approximately 50%.

As progress continues on the condition of carriageways, the balance of focus is also moving towards the footways programme where there are still approximately 70 roads categorised as Red. The proposal is to carry out essential footway replacement works in at least 10 roads in 2019/20 and expanding this in future years.

Catford Town Centre

Architect's Studio Egret West has been appointed to develop a master plan to guide the regeneration of the Town Centre. The plan will be completed in Autumn of 2019 and will form the basis of any future plan for the Town Centre. It will be used as an evidence base for the emerging Local Plan. Work is also continuing with TfL on the agreed proposal to realign the South Circular A205 through the Town Centre and work is expected to start in 2021. Meanwhile, the engagement activity of Team Catford has continued to build on the programme of social engagement started in 2016. The Team's work is expected to continue through the development of the master plan and beyond.

Asset Management Programme

Funding from the Asset Management Programme (AMP) has continued to support reactive and much needed capital works across the operational corporate estate. This has included fabric works such as roof replacement and mechanical works including boiler replacements and lift repairs across the estate of approximately 90 buildings and sites. More recently, the programme has funded works to the Civic Suite, Registry Office and some essential works as part of the main Laurence House refurbishment programme. A full condition survey of the corporate estate is currently under way. The results will help define the future investment need of the estate and also underpin the use of the AMP capital programme funding for future years.

Smart Working Programme

The Smarter Working programme seeks to consolidate offices and release sites for future redevelopment in Catford town centre, whilst refurbishing the council's main office site, Laurence House, to ensure it is fit for purpose until new council offices can be built. The ground floor has been refurbished to provide a modern, welcoming and better functioning reception for the council. It opened to staff and the public in October 2018. Work has commenced on refurbishing floors 1 to 5, improving and extending toilet provision, delivering new meeting rooms and kitchens, improving the heating and ventilation system, new energy efficient LED lighting, decoration and a layout and furniture which supports and encourages agile working. The programme of work will continue until the autumn of 2019, one floor at a time.

Beckenham Place Park

The restoration of Beckenham Place Park (to the western side of the railway) will be completed in 2019/20. Listed buildings, now restored, will become alive again with new uses and the long anticipated restored landscape, with its reinstated lake, will be enjoyed by thousands of local people. The Georgian stable block will become the new park café, and a base for environmental education in the park. The stable yard itself will become an arrival and visitor's hub, with a terrace overlooking the expanded formal gardens. New play facilities will be available in the restored pleasure grounds, and the previously derelict Gardener's cottage will be re-purposed as a hub for volunteer activity in the park, in the midst of the new community garden. Open water swimming will take place in the lake, and visitors will be encouraged to explore the breadth and nature of Lewisham's largest park on new paths and trails.

Lewisham Homes – Property Acquisition

This funding supports the delivery of the Lewisham Homes acquisitions programme that secures properties for temporary accommodation for homeless households, making a saving on the Council's spend on bed & breakfast accommodation.

Achilles Street

Work is underway to deliver a Resident Ballot on the Achilles Street Estate in New Cross to determine if the estate should be redeveloped to provide additional new homes.

Edward Street

Edward St will provide 34 new high-quality temporary accommodation homes for local families in housing need. Start on site planned early 2020 following tender and contractor appointment.

Fleet vehicle replacement

This budget will finance the replacement of 75 vehicles in the Council's fleet in order to meet the approaching Low Emissions Zone (LEZ) changes in October 2020.

Housing Matters Programmes update

The majority of spend in 2019/20 will relate to feasibility and planning application preparation for the new homes programme and delivery of a number of schemes by Lewisham Homes on site. Around 27 sites including 376 homes for social rent, are forecast to achieve planning permission by early 2020. 5 schemes delivering 85 homes are currently on site and a further 14 sites delivering 122 homes are forecast to start on site between April and January 2020.

Decent Homes Programme

Lewisham Homes are responsible for ensuring council owned stock under their management is brought up to and maintained to a decent homes level, covering both internal and external enveloping works. Lewisham Homes are leading on the delivery of the decent homes programme (under delegated powers) in consultation / agreement with the Council.
