Subject: 13 Deptford Church Street licence application - objection

Dear Richard

The Deptford Society has been asked to comment on this licence application by one of our local councillors. We have reviewed the details of the licence application and would like to submit an objection on the grounds set out below.

We appreciate that the premises is not within either of the conservation areas that we cover, and hence leave it to your judgement of licensing law as to whether our objection can count in this instance.

We believe that granting the licence in its current form would undermine the licensing objective of prevention of public nuisance. Living conditions for those residents adjacent to, and living above the premises would be severely impacted with loss of sleep and disturbance from the noise of delivery drivers and customers attending the premises throughout the night.

yours sincerely

Helena Russell/Mark Shackleton
